# Independent Auditors' Report 

The Division of Retirement and Benefits and Members of the Alaska Retirement Management Board State of Alaska Teachers' Retirement System:

We have audited the accompanying schedules of employer allocations of the State of Alaska Teachers' Retirement System Retiree Medical Plan (the Plan) as of and for the years ended June 30, 2017 and 2016, and the related notes. We have also audited the total for all entities of the columns titled net OPEB asset, total deferred outflows of resources, total deferred inflows of resources, and total OPEB expense (specified column totals) included in the accompanying schedule of OPEB amounts by employer of the Plan as of and for the year ended June 30, 2017 and the total for all entities of the column titled net OPEB asset (specified column total) included in the accompanying schedule of OPEB amounts by employer of the Plan as of June 30, 2016, and the related notes.

## Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express opinions on the schedules of employer allocations and the specified column totals included in the schedules of OPEB amounts by employer based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedules of employer allocations and specified column totals included in the schedules of OPEB amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and the net OPEB asset, total deferred outflows of resources, total deferred inflows of resources, and total OPEB expense for the total of all participating entities for the Plan as of and for the year ended June 30, 2017, and the employer allocations and the net OPEB asset for the total of all participating entities for the Plan as of and for the year ended June 30, 2016, in accordance with U.S. generally accepted accounting principles.

## Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the State of Alaska Teachers' Retirement System, which includes the Retiree Medical Plan, as of and for the year ended June 30, 2017, and our report thereon, dated December 5, 2017, expressed an unmodified opinion on those financial statements.

## Restriction on Use

Our report is intended solely for the information and use of the State of Alaska Teachers' Retirement System management, the members of the Alaska Retirement Management Board, State of Alaska Teachers' Retirement System Retiree Medical Plan employers, and their auditors, and is not intended to be and should not be used by anyone other than these specified parties.

## (1) Plan Description

The State of Alaska Teachers' Retirement System (System) Retiree Medical Plan (Plan) is a cost-sharing multiple-employer defined benefit other postemployment benefits (OPEB) plan that provides health benefits for teachers and other eligible members.

The Plan is established under Alaska Statute 14.25 which defines the benefit and contribution provisions and may be amended only by the State of Alaska (State) legislature. The self-insured Plan provides major medical coverage to eligible employees who participate in the System's Defined Contribution Retirement (DCR) Plan. Members are not eligible to use this Plan until they have at least 10 years of service, and are Medicare age eligible.

The medical benefits available to eligible persons means that an eligible person may not be denied medical coverage except for failure to pay the required premium. Major medical insurance coverage takes effect on the first day of the month following the date of the Plan administrator's approval of the election and stops when the person who elects coverage dies or fails to make the required premium payment. The coverage for persons 65 years of age or older is the same as that available for persons under 65 years of age. The benefits payable to those persons 65 years of age or older supplement any benefits provided under the federal old age, survivors and disability insurance program. The medical and optional insurance premiums owed by the person who elects coverage may be deducted from the health reimbursement arrangement until the balance becomes insufficient to pay the premiums, at which point the person who elects coverage shall pay the premiums directly.

The cost of premiums for retiree major medical insurance coverage for an eligible member or surviving spouse who is:
(1) not eligible for Medicare is an amount equal to the full monthly group premium for retiree major medical insurance coverage,
(2) eligible for Medicare is the following percentage of the premium amounts established for retirees who are eligible for Medicare:
(a) 30 percent if the member had 10 or more, but less than 15 , years of service;
(b) 25 percent if the member had 15 or more, but less than 20, years of service;
(c) 20 percent if the member had 20 or more, but less than 25 , years of service;
(d) 15 percent if the member had 25 or more, but less than 30, years of service; and
(e) 10 percent if the member had 30 or more years of service.

## (2) Basis of Presentation

The schedules of employer allocations and the schedules of OPEB amounts by employer (collectively, the Schedules) present amounts that are considered elements of the financial statements of the System and its participating employers. Accordingly, they do not purport to be a complete presentation of the financial

position or changes in financial position of the System, its participating employers, or the State. The amounts presented in the Schedules are prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of the Plan to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

## (3) Allocation Methodology

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB asset, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense. The employer allocation percentages presented in the schedules of employer allocations and applied to amounts presented in the schedules of OPEB amounts by employer are based on the ratio of contributions made for each employer to total contributions made to the Plan during the years ended June 30, 2017 and 2016, respectively. Employer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedules of OPEB amounts by employer may result in immaterial differences.

## (4) Contributions

Employer contribution rates are actuarially determined and adopted by the Alaska Retirement Management Board (Board). The 2017 employer effective contribution rate is $1.05 \%$ of member's compensation.
(5) Collective Net OPEB Asset

Components of the Collective Net OPEB Asset
The components of the collective net OPEB asset of the Plan are as follows as of June 30:

|  | 2017 |  | 2016 |
| :---: | :---: | :---: | :---: |
| Total OPEB liability | \$ | 26,108,000 | 21,476,000 |
| Plan fiduciary net position |  | 30,848,000 | 24,079,000 |
| Net OPEB asset | \$ | $(4,740,000)$ | $(2,603,000)$ |

The total OPEB liability for the June 30, 2017 measurement date was determined by an actuarial valuation as of June 30, 2016, which was rolled forward to June 30, 2017. The total OPEB liability for the June 30, 2016 measurement date was determined by an actuarial valuation as of June 30, 2015, which was rolled

forward to June 30, 2016. The actuarial valuations used the following actuarial assumptions as of both the June 30, 2017 and 2016 measurement dates:

| Inflation rate | $3.12 \%$ <br> Galary increases: <br> Graded by service, from 8.11\% to $3.87 \%$ |
| :--- | :--- |
| Investment rate of return | $8.00 \%$, net of OPEB plan investment expenses. <br> This is based on average inflation rate of $3.12 \%$ <br> and a real rate of return of $4.88 \%$ |
| Healthcare cost trend rates | Pre-65 medical: $8.8 \%$ grading down to $4.4 \%$ <br> Post-65 medical: $5.8 \%$ grading down to $4.0 \%$ <br> Prescription drugs: $5.4 \%$ grading down to $4.0 \%$ |

Post-termination mortality rates were based on $94 \%$ of the male rates and $97 \%$ of female rates of the RP2000 Combined Mortality Table, 2000 Base Year projected to 2018 with Projection Scale BB, with a 3-year setback for males and 4 -year setback for females. The rates for pre-termination mortality were $68 \%$ of the male and $60 \%$ of the female post-termination mortality rates.

Participation rates reflect the expected plan election rate that varies by reason for decrement, duration that a member may pay full cost prior to Medicare eligibility and availability of alternative and/or lower cost options, particularly in the Medicare market. This assumption is based on observed trends in participation from a range of other plans. The following participation rates were used to measure the collective net OPEB liability of the Plan as of both June 30, 2017 and 2016:

|  |  |  | 25-29 | 89.30 |
|  |  |  | 30+ | 94.00 |

The actuarial assumptions used in the June 30, 2016 and 2015 actuarial valuations were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2013, resulting in changes in actuarial assumptions effective for the June 30, 2014 actuarial valuation adopted by the Board to better reflect expected future experience.

## Long-term Expected Rate of Return

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of June 30, 2017 and

2016 are summarized in the following table (note that the rates shown below exclude the inflation component):

| Asset class | Long-term expected real rate of return |  |
| :---: | :---: | :---: |
|  | 2017 | 2016 |
| Broad domestic equity | 8.83\% | -\% |
| Global ex-U.S. equity | 7.79 | 5.55 |
| Intermediate treasuries | 1.29 | - |
| Opportunistic | 4.76 | - |
| Real assets | 4.94 | 3.65 |
| Absolute return | 4.76 |  |
| Private equity | 12.02 | - |
| Cash equivalents | 0.63 | - |
| Fixed income composite | - | 0.80 |
| Alternative equity | - | 4.70 |
| Domestic equity | - | 5.35 |
| Private equity | - | 6.25 |

## Discount Rate

The discount rate used to measure the total OPEB liability as of June 30, 2017 and 2016 was $8.0 \%$. The projection of cash flows used to determine the discount rate assumed that employer contributions will continue to follow the current funding policy, which meets State statutes. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability in accordance with the method prescribed by GASB Statement No. 74.
