GASB 75 Report as of June 30, 2024 for June 30, 2025 Reporting – PERS DCR Occupational Death & Disability

Dear Members of The Alaska Retirement Management Board, The Department of Revenue, and The Department of Administration:

We have prepared the required accounting information for Governmental Accounting Standards Board (GASB) Statement No. 75 (GASB 75) for the State of Alaska Public Employees' Retirement System Defined Contribution Retirement Plan (PERS DCR) for June 30, 2025 reporting based on a measurement date of June 30, 2024. Please refer to the GASB 74 report dated October 4, 2024 for any supplemental information or documentation.

This report covers the occupational death & disability portion of PERS DCR. A separate GASB 75 report will be issued for the retiree medical portion of PERS DCR.

We certify that the information contained in this report has been prepared in accordance with generally accepted actuarial principles and practices. To the best of our knowledge, the information fairly presents the actuarial position of PERS DCR in accordance with the requirements of GASB 75 as of the June 30, 2024 measurement date.

The Alaska Retirement Management Board (Board) and staff of the State of Alaska and its auditors may use this report for the review of the operation of PERS DCR. The report may also be used in the preparation of State of Alaska's and participating employers' audited financial statements. Use of this report for any other purpose or by anyone other than the Board, the staff of the State of Alaska or its auditors may not be appropriate and may result in mistaken conclusions due to failure to understand applicable assumptions, methodologies, or inapplicability of the report for that purpose. Because of the risk of misinterpretation of actuarial results, Gallagher recommends requesting its advanced review of any statement to be based on information contained in this report. Gallagher will accept no liability for any such statement made without its prior review.

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the actuarial assumptions, changes in assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions or applicable law. An analysis of the potential range of such future differences is beyond the scope of this report, except for the GASB 75 required disclosure of the sensitivity of net OPEB liability to changes in the discount rate.

In preparing the actuarial results, we have relied upon information provided by the State of Alaska staff regarding PERS DCR plan provisions, participants, assets, contributions, and other matters used in the June 30, 2023 actuarial valuation of PERS DCR. Although we did not audit the data, we reviewed the data for reasonableness and consistency with the prior year's information. The accuracy of the results presented herein is dependent on the accuracy of the data. We also reflected the information contained in the June 30, 2024 asset statements that were provided to us by staff of the State of Alaska on September 21, 2024.

The information in this report was prepared based on the actuarial assumptions and methods used in the June 30, 2023 actuarial valuation of PERS DCR, except as noted herein. We rolled forward the liabilities from June 30, 2023 to the June 30, 2024 measurement date, as GASB 75 permits. In our opinion, the actuarial assumptions used are appropriate for purposes of the valuation and are reasonably related to the experience of PERS DCR and to reasonable long-term expectations. In our professional judgment, the combined effect of the assumptions is expected to have no significant bias.

Where presented, the "net OPEB liability" and "plan fiduciary net position as a percentage of the total OPEB liability" are measured on a market value of assets basis. These items presented may be appropriate for GASB 75 reporting but make no assessment regarding the cost to settle (i.e., purchase annuities) to cover any portion of the plan's liabilities.

Actuarial Standards of Practice No. 27 (ASOP 27) and No. 35 (ASOP 35) require the actuary to disclose the information and analysis used to support the actuary's determination that the assumptions selected by the plan sponsor do not significantly conflict with those that, in the actuary's professional judgment, are reasonable for the purpose of the measurement. Gallagher provides advice on reasonable assumptions when performing periodic experience studies. The Board selects the assumptions used, and the signing actuaries review the assumptions annually through discussions with the Board staff and analysis of actuarial experience.

In the case of the Board's selected expected return on assets (EROA), the signing actuaries have used economic information and tools provided by Gallagher's Institutional Investment Consulting practice. A spreadsheet tool created by this practice converts averages, standard deviations, and correlations from Gallagher's Capital Market Assumptions that are used for stochastic forecasting into approximate percentile ranges for the arithmetic and geometric average returns. The EROA spreadsheet tool is intended to suggest possible reasonable ranges for the expected return on assets without attempting to predict or select a specific best estimate rate of return. It takes into account the duration of investment and the target allocation of assets in the portfolio to various asset classes.

Based on the actuaries' analysis, including consistency with other assumptions used in the valuation, the percentiles generated by the EROA spreadsheet tool described above, and review of actuarial gain/loss analysis, the signing actuaries believe the assumptions, in their professional judgment, do not significantly conflict with what are reasonable for the purpose of the measurement.

Actuarial Standard of Practice No. 56 (ASOP 56) provides guidance to actuaries performing actuarial services that involve designing, developing, selecting, modifying, using, reviewing, or evaluating models. In addition to the EROA spreadsheet tool disclosed above, Gallagher uses third-party software to perform annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the accounting rules specified in this report. The output from the third-party vendor software is used as input to an internally developed model that applies applicable accounting rules to the derived liabilities and other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report.

Gallagher maintains an extensive review process in which the results of the liability calculations are checked using detailed sample life output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other accounting outputs and the internal model are similarly reviewed in detail and at a higher level for accuracy, reasonability, and consistency with prior results. Gallagher also reviews the third-party model when significant changes are made to the software.

This review is performed by experts within Gallagher who are familiar with applicable accounting rules, as well as the manner in which the model generates its output. If significant changes are made to the internal model, extra checking and review are completed. Significant changes to the internal model that are applicable to multiple clients are generally developed, checked, and reviewed by multiple experts within Gallagher who are familiar with the details of the required changes.

This report was prepared under our supervision and in accordance with all applicable Actuarial Standards of Practice. David Kershner is a Fellow of the Society of Actuaries, an Enrolled Actuary, a Member of the American Academy of Actuaries, and a Fellow of the Conference of Consulting Actuaries. Robert Besenhofer is an Associate of the Society of Actuaries, a Member of the American Academy of Actuaries, and a Fellow of Actuaries. Christian Hershey is an Associate of the Society of Actuaries. Christian Hershey is an Associate of the Society of Actuaries. We meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

We are available to discuss this report with you at your convenience. David can be reached at (602) 803-6174, Robert can be reached at (312) 399-9339, and Christian can be reached at (717) 308-8981.

Respectfully submitted,

LKL

OPEB Expense

Measurement Date	June 30, 2024	June 30, 2023
Reporting Date	June 30, 2025	June 30, 2024
Service cost	\$ 5,483,000	\$ 5,068,000
Interest cost	1,864,000	1,623,000
Projected return on assets	(5,399,000)	(4,650,000)
Current period		
Effect of changes in benefit terms	0	0
Effect of changes in assumptions	0	0
Difference between expected and actual experience	(387,949)	(397,692)
Difference between projected and actual investment earnings	(270,200)	(62,600)
Member contributions	0	0
Administrative expenses	32,000	34,000
Service purchases and plan transfers	0	0
Current period recognition of prior years'		
Deferred outflows of resources	1,955,200	2,029,400
Deferred inflows of resources	(5,175,938)	(4,715,646)
Other additions less other deductions	0	0
Total	\$ (1,898,887)	\$ (1,071,538)

The employers' allocation of the OPEB expense for June 30, 2025 reporting is shown in Schedule C in the Appendix.

The difference between projected and actual investment earnings is recognized over 5 years.

The effects of changes in assumptions and differences between expected and actual experience are recognized over the average future working lifetime of active and inactive members. This period is:

- 7.8 years as of June 30, 2023 (for the June 30, 2024 measurement date)
- 7.8 years as of June 30, 2022 (for the June 30, 2023 measurement date)

Actuarial Assumptions

The total OPEB liability as of the June 30, 2024 measurement date was determined by an actuarial valuation as of June 30, 2023, using the actuarial assumptions outlined in Section 2. The liabilities from the June 30, 2023 valuation were rolled forward to June 30, 2024.

The actuarial assumptions used in the June 30, 2023 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2017 to June 30, 2021. The new demographic and economic assumptions were adopted by the Board at the June 2022 meeting to better reflect expected future experience and were effective for the June 30, 2022 valuation.

1 GASB 75 Information

Actuarial Cost Method

Entry Age Normal, level percent of pay.

Asset Valuation Method

Invested assets are reported at fair value.

Allocation of Net OPEB Liability

The employers' allocations of net OPEB liability as of the June 30, 2023 and June 30, 2024 measurement dates are shown in Schedule A and Schedule B, respectively, in the Appendix.

Allocation of Deferred Outflows/Inflows of Resources

The employers' allocation of deferred outflows/inflows of resources as of the June 30, 2024 measurement date is shown in Schedule C in the Appendix.

Date Created	Туре	Original Amortization Period	Outf	Deferred low/(Inflow) June 30, 2024
June 30, 2017	Liability Gain	9.1 years	\$	(56,813)
June 30, 2018	Liability Gain	9.1 years	\$	(1,298,077)
June 30, 2019	Assumption Change	8.2 years	\$	(141,659)
June 30, 2019	Liability Gain	8.2 years	\$	(872,488)
June 30, 2020	Liability Gain	8.2 years	\$	(1,179,317)
June 30, 2021	Asset Gain	5 years	\$	(1,979,600)
June 30, 2021	Liability Gain	8.3 years	\$	(2,548,398)
June 30, 2022	Assumption Change	7.8 years	\$	(6,154)
June 30, 2022	Asset Loss	5 years	\$	3,438,800
June 30, 2022	Liability Gain	7.8 years	\$	(3,085,538)
June 30, 2023	Asset Gain	5 years	\$	(187,800)
June 30, 2023	Liability Gain	7.8 years	\$	(2,306,615)
June 30, 2024	Asset Gain	5 years	\$	(1,080,800)
June 30, 2024	Liability Gain	7.8 years	\$	(2,638,051)

Deferred Outflows/Inflows of Resources as of June 30, 2024 Measurement Date

Allocation of Future Years' Recognition of Deferred Outflows/Inflows

The employers' allocation of recognition of the deferred outflows/inflows as of the June 30, 2024 measurement date for each of the next five fiscal years and thereafter is shown in Schedule D in the Appendix. These amounts include recognition of the deferred outflows/inflows from prior years.

Allocation Methodology

Amounts for the June 30, 2023 measurement date were allocated to employers based on each employer's occupational death and disability contribution relative to the total employer occupational death and disability contributions made in FY2023.

Amounts for the June 30, 2024 measurement date were allocated to employers based on each employer's occupational death and disability contribution relative to the total employer occupational death and disability contributions made in FY2024. At the request of the auditors, the Metcalfe transfer amounts were allocated to each employer based on their FY23 allocation percentage.

1 GASB 75 Information

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The table below shows the development of the net OPEB liability as of June 30, 2024 using the discount rate of 7.25%, as well as a discount rate that is one percentage point lower (6.25%) and one percentage point higher (8.25%) than the current rate (\$ in thousands).

FYE June 30, 2024	1.00% ecrease (6.25%)	Dise	Current count Rate (7.25%)	1.00% ncrease (8.25%)
Service cost	\$ 6,097	\$	5,483	\$ 4,980
Interest	1,839		1,864	1,881
Benefit payments	(716)		(716)	(716)
Net change to inflows/outflows	 (3,089)		<u>(3,026)</u>	 (2,969)
Net change in total OPEB liability	\$ 4,131	\$	3,605	\$ 3,176
Total OPEB liability - beginning	\$ 23,683	\$	20,584	\$ 18,172
Total OPEB liability - ending (a)	\$ 27,814	\$	24,189	\$ 21,348
Plan fiduciary net position - ending (b)	\$ 83,889	\$	83,889	\$ 83,889
Plan's net OPEB liability (asset) - ending (a) - (b)	\$ (56,075)	\$	(59,700)	\$ (62,541)

2 Actuarial Assumptions and Methods¹

The funding method used in this valuation was adopted by the Board in October 2006, and was modified as part of the experience study for the period July 1, 2013 to June 30, 2017. The asset smoothing method used to determine valuation assets was implemented effective June 30, 2006.

Benefits valued are those delineated in Alaska State statutes as of the valuation date. Changes in State statutes effective after the valuation date are not taken into consideration in setting the assumptions and methods.

Actuarial Cost Method

Liabilities and contributions shown in the June 30, 2023 actuarial valuation report are computed using the Entry Age Normal Actuarial Cost Method, level percent of pay. Each year's difference between actual and expected unfunded actuarial accrued liability is amortized over 25 years as a level percentage of expected payroll.

Cost factors designed to produce annual costs as a constant percentage of each member's expected compensation in each year for death & disability benefits and retiree medical benefits, from the assumed entry age to the last age with a future benefit, were applied to the projected benefits to determine the normal cost (the portion of the total cost of the plan allocated to the current year under the method). The normal cost is determined by summing intermediate results for active members and determining an average normal cost rate which is then related to the total DCR Plan payroll of active members. The actuarial accrued liability for active members (the portion of the total cost of the plan allocated to prior years under the method) was determined as the excess of the actuarial present value of projected benefits over the actuarial present value of future normal costs.

The actuarial accrued liability for beneficiaries and disabled members currently receiving benefits (if any) was determined as the actuarial present value of the benefits expected to be paid. No future normal costs are payable for these members.

The actuarial accrued liability under this method at any point in time is the theoretical amount of the fund that would have been accumulated had annual contributions equal to the normal cost been made in prior years (it does not represent the liability for benefits accrued to the valuation date). The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over the actuarial value of plan assets measured on the valuation date.

Under this method, experience gains or losses, i.e., decreases or increases in accrued liabilities attributable to deviations in experience from the actuarial assumptions, adjust the unfunded actuarial accrued liability.

Valuation of Assets

Effective June 30, 2006, the asset valuation method recognizes 20% of the investment gain or loss in each of the current and preceding four years. This method was phased in over five years. Fair Value of Assets was \$0 as of June 30, 2006. All assets are valued at fair value. Assets are accounted for on an accrued basis and are taken directly from financial statements audited by KPMG LLP. Valuation assets are constrained to a range of 80% to 120% of the fair value of assets.

Changes in Methods Since the Prior Valuation

There were no changes in the asset or valuation methods since the prior valuation.

¹ Used to determine June 30, 2023 funding assets and liabilities, and contribution rates.

Actuarial Assumptions

The demographic and economic assumptions used in the June 30, 2023 valuation are described below. Unless noted otherwise, these assumptions were adopted by the Board at the June 2022 meeting based on the experience study for the period July 1, 2017 to June 30, 2021.

Investment Return

7.25% per year, net of investment expenses.

Salary Scale

Salary scale rates based on the 2017-2021 actual experience (see Table 1).

Inflation – 2.50% per year.

Productivity - 0.25% per year.

Payroll Growth

2.75% per year (inflation + productivity).

Total Inflation

Total inflation as measured by the Consumer Price Index for urban and clerical workers for Anchorage is assumed to increase 2.50% annually.

Mortality (Pre-Commencement)

Mortality rates based on the 2017-2021 actual experience, to the extent the experience was statistically credible.

Employee mortality is in accordance with the following tables:

- For Peace Officers/Firefighters: Pub-2010 Safety Employee table, amount-weighted, and projected with MP-2021 generational improvement.
- For Others: Pub-2010 General Employee table, amount-weighted, and projected with MP-2021 generational improvement.

Deaths are assumed to result from occupational causes 70% of the time for Peace Officer/Firefighters, and 35% of the time for Others.

Mortality (Post-Commencement)

Mortality rates based on the 2017-2021 actual experience, to the extent the experience was statistically credible.

Retiree mortality is in accordance with the following tables:

- For Peace Officers/Firefighters: Pub-2010 Safety Retiree table, amount-weighted, and projected with MP-2021 generational improvement.
- For Others: 98% of male and 106% of female rates of the Pub-2010 General Retiree table, amountweighted, and projected with MP-2021 generational improvement.

Beneficiary mortality is in accordance with the following tables:

• For Peace Officers/Firefighters: Pub-2010 Contingent Survivor table, amount-weighted, and projected with MP-2021 generational improvement.

• For Others: 102% of male and 108% of female rates of the Pub-2010 Contingent Survivor table, amount-weighted, and projected with MP-2021 generational improvement.

The beneficiary mortality tables are applied only after the death of the original member.

Turnover

Select and ultimate rates based on the 2017-2021 actual experience (see Tables 2a and 2b).

Disability

No changes to the incidence rates from the prior valuation due to insufficient 2017-2021 actual experience (see Tables 3a and 3b). The disability rates continue after retirement eligibility.

Disabilities are assumed to be occupational 70% of the time for Peace Officer/Firefighters, and 35% of the time for Others.

For Peace Officer/Firefighters, members are assumed to take the monthly annuity 100% of the time.

Post-disability mortality is in accordance with the following tables:

- For Peace Officers/Firefighters: Pub-2010 Safety Disabled Retiree table, amount-weighted, and projected with MP-2021 generational improvement.
- For Others: Pub-2010 Non-Safety Disabled Retiree table, amount-weighted, and projected with MP-2021 generational improvement.

Retirement

Retirement rates based on the 2017-2021 actual experience (see Table 4).

Spouse Age Difference

Male members are assumed to be three years older than their wives. Female members are assumed to be two years younger than their husbands.

Percent Married for Occupational Death & Disability

For Others, 75% of male members and 70% of female members are assumed to be married at termination from active service. For Peace Officer/Firefighters, 85% of male members and 60% of female members are assumed to be married at termination from active service.

Part-Time Service

Peace Officer/Firefighter members are assumed to be full-time employees. For Other members, part-time employees are assumed to earn 0.75 years of service per year.

Peace Officer / Firefighter Occupational Disability Retirement Benefit Commencement

The occupational disability retirement benefit is assumed to be first payable from the member's DC account and the retirement benefit payable from the occupational death & disability trust will commence five years later.

Imputed Data

Data changes from the prior year which are deemed to have an immaterial impact on liabilities and contribution rates are assumed to be correct in the current year's client data.

Non-vested terminations with appropriate refund dates are assumed to have received a full refund of contributions. Active members with missing salary and service are assumed to be terminated with status based on their vesting percentage.

Administrative Expenses

The Normal Cost as of June 30, 2023 was increased by \$34,000. This amount is based on the average of actual administrative expenses during the last two fiscal years.

Changes in Assumptions Since the Prior Valuation

The amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from plan assets. There were no other changes in actuarial assumptions since the prior valuation.

3 Summary of Plan Provisions¹

Effective Date

July 1, 2006, with amendments through June 30, 2023.

Administration of Plan

The Commissioner of Administration or the Commissioner's designee is the administrator of the Plan. The Attorney General of the state is the legal counsel for the Plan and shall advise the administrator and represent the Plan in legal proceedings.

The Alaska Retirement Management Board prescribes policies, adopts regulations, invests the funds, and performs other activities necessary to carry out the provisions of the Plan.

Employers Included

Currently there are 151 employers participating in PERS DCR, including the State of Alaska, and 150 political subdivisions and public organizations.

Membership

An employee of a participating employer who first enters service on or after July 1, 2006, or a member of the defined benefit plan who works for an employer who began participation on or after July 1, 2006, and meets the following criteria is a member in the Plan:

- Permanent full-time or part-time employees of the State of Alaska, participating political subdivisions or public organizations. An employee must be regularly scheduled to work 30 or more hours per week to be considered full-time by the PERS. An employee must be regularly scheduled to work 15 or more hours per week but less than 30 hours to be considered a part-time employee for PERS purposes.
- Elected state officials.
- Elected municipal officials who are compensated and receive at least \$2,001.00 per month.

Members can convert to PERS DCR if they are an eligible non-vested member of the PERS defined benefit plan whose employer consents to transfers to the defined contribution plan and they elect to transfer his or her account balance to PERS DCR.

Member Contributions

Other than the member-paid premiums discussed later in this section, there are no member contributions for the occupational death & disability benefits.

¹ Includes a summary of occupational death and disability benefits.

3 Summary of Plan Provisions

Occupational Disability Benefits

- Benefit is 40% of salary at date of disability.
- For Peace Officer and Firefighters there is a Disability Benefit Adjustment such that:
 - The disability benefit is increased by 75% of the cost-of-living increase in the preceding calendar year or 9%, whichever is less.
 - At the time the disabled member retires, the retirement benefit will be increased by a percentage equal to the total cumulative percentage that has been applied to the disability benefit. Monthly annuity payments are made from the member's contribution balance until the fund is exhausted, at which the plan pays all remaining payments.
- For Others, there is no increase in the occupational disability benefit after commencement.
- Member earns service while on occupational disability.
- Benefits cease when the member becomes eligible for normal retirement at Medicare-eligible age and 10 years of service, or at any age with 30 years of service for Others members or 25 years of service for Peace Officer/Firefighter members.
- Peace Officer/Firefighter members may select the defined contribution account or the monthly benefit payable as if they were retiring under Tier 3 (service continues during disability, final average salary is as of date of disability), but with payments first made from the member's DC account until it's exhausted.

Occupational Death Benefits

- Benefit is 40% of salary for Others members and 50% of salary for Peace Officer/Firefighter members.
- Survivor's Pension Adjustment: A survivor's pension is increased by 50% of the cost-of-living increase in the preceding calendar year or 6%, whichever is less, if the recipient is at least age 60 on July 1, or under age 60 if the recipient has been receiving PERS benefits for at least 5 years as of July 1.
- Benefits cease when the member would have become eligible for normal retirement.

Changes in Benefit Provisions Valued Since the Prior Valuation

There were no changes in benefit provisions since the prior valuation.
