## GASB 75 Report as of June 30, 2022 for June 30, 2023 Reporting - PERS

Dear Members of The Alaska Retirement Management Board, The Department of Revenue and The Department of Administration:

We have prepared the required accounting information for Governmental Accounting Standards Board (GASB) Statement No. 75 (GASB 75) for the State of Alaska Public Employees' Retirement System (PERS) for June 30, 2023 reporting based on a measurement date of June 30, 2022. Under GASB 75, accounting information prepared under GASB 74 as of June 30, 2022 (as previously provided) serves as the basis for these disclosures. Please refer to the GASB 74 report dated September 30, 2022 for any supplemental information or documentation.
This report covers the postretirement healthcare (OPEB) portion of PERS. A separate GASB 68 report will be issued for the pension portion of PERS.
We certify that the information contained in this report has been prepared in accordance with generally accepted actuarial principles and practices. To the best of our knowledge, the information fairly presents the actuarial position of PERS in accordance with the requirements of GASB 75 as of the June 30, 2022 measurement date.

The Alaska Retirement Management Board (Board) and staff of the State of Alaska and its auditors may use this report for the review of the operation of PERS. The report may also be used in the preparation of State of Alaska's and participating employers' audited financial statements. Use of this report for any other purpose or by anyone other than the Board, the staff of the State of Alaska or its auditors may not be appropriate and may result in mistaken conclusions because of failure to understand applicable assumptions, methods, or inapplicability of the report for that purpose. Because of the risk of misinterpretation of actuarial results, Buck recommends requesting its advanced review of any statement to be based on information contained in this report. Buck will accept no liability for any such statement made without its prior review.

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes in assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions or applicable law. In particular, retiree group benefits models necessarily rely on the use of approximations and estimates and are sensitive to changes in these approximations and estimates. Small variations in these approximations and estimates may lead to significant changes in actuarial measurements. An analysis of the potential range of such future differences is beyond the scope of this report,
except for the GASB 75 required disclosure of the sensitivity of net OPEB liability to changes in the discount rate and to changes in the healthcare cost trend rates.

In preparing the actuarial results, we have relied upon information provided by the State of Alaska staff regarding PERS plan provisions, participants, assets, contributions and other matters used in the June 30, 2021 actuarial valuation of PERS. Although we did not audit the data, we reviewed the data for reasonableness and consistency with the prior year's information. The accuracy of the results presented herein is dependent on the accuracy of the data. We also reflected the information contained in the June 30, 2022 asset statements that were provided to us by staff of the State of Alaska on September 13, 2022.
The information in this report was prepared based on an actuarial valuation as of June 30, 2021 reflecting updated demographic and economic assumptions adopted by the Board in June 2022 based on the results of an actuarial experience study for the period from July 1, 2017 to June 30, 2021. We rolled forward the liabilities from June 30, 2021 to the June 30, 2022 measurement date, as GASB 75 permits, and adjusted the liabilities for the new assumptions. In our opinion, the actuarial assumptions used are appropriate for purposes of the valuation and are reasonably related to the experience of PERS and to reasonable long-term expectations.

Where presented, the "net OPEB liability" and "plan fiduciary net position as a percentage of the total OPEB liability" are measured on a market value of assets basis. These items presented may be appropriate for GASB 75 reporting but make no assessment regarding the cost to settle (i.e., purchase annuities) to cover any portion of the plan's liabilities.
Actuarial Standards of Practice No. 27 (ASOP 27) and No. 35 (ASOP 35) require the actuary to disclose the information and analysis used to support the actuary's determination that the assumptions selected by the plan sponsor do not significantly conflict with what, in the actuary's professional judgment, are reasonable for the purpose of the measurement. Buck provides advice on reasonable assumptions when performing periodic experience studies. The Board selects the assumptions used and annually the signing actuary reviews the assumptions through discussions with the Board staff and analyzing actuarial gain/loss experience. In the case of the Board's selection of the expected return on assets (EROA), the signing actuary has used economic information and tools provided by Buck's Financial Risk Management (FRM) practice. A spreadsheet tool created by the FRM practice converts averages, standard deviations, and correlations from Buck's Capital Markets Assumptions that are used for stochastic forecasting into approximate percentile ranges for the arithmetic and geometric average returns. It is intended to suggest possible reasonable ranges for EROA without attempting to predict or select a specific best estimate rate of return. It takes into account the duration (horizon) of investment and the target allocation of assets in the portfolio to various asset classes. Based on the actuary's analysis, including consistency with other assumptions used in the valuation, the percentiles generated by the spreadsheet tool described above, and review of actuarial gain/loss analysis, the actuary believes the assumptions do not significantly conflict with what, in the actuary's professional judgment, are reasonable for the purpose of the measurement.

## Use of Models

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services with respect to designing, developing, selecting, modifying, using, reviewing, or evaluating models. In addition to the EROA analysis spreadsheet model disclosed above, Buck uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the accounting rules specified in this report. The output from the third-party vendor software is used as input to internally developed models that apply applicable accounting rules to the derived liabilities and
other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report. Buck has an extensive review process in which the results of the liability calculations are checked using detailed sample life output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other accounting outputs and the internal models are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Buck also reviews the third-party model when significant changes are made to the software. The review is performed by experts within Buck who are familiar with applicable accounting rules as well as the manner in which the model generates its output. If significant changes are made to the internal models, extra checking and review are completed. Significant changes to the internal model that are applicable to multiple clients are generally developed, checked and reviewed by multiple experts within Buck who are familiar with the details of the required changes.

Additional models used in valuing health benefits are described later in the report.

## COVID-19

The potential impact of the ongoing COVID-19 pandemic on costs and liabilities was considered, and an adjustment was made in setting the medical per capita claims cost assumption. FY20 medical claims were adjusted for a COVID-19 related decline in claims during the last four months (March - June) of FY20. FY21 medical claims were adjusted for a COVID-19 related decline in those claims during the fiscal year. A more detailed explanation on these adjustments is shown in Section 2.

This report was prepared under our supervision and in accordance with all applicable Actuarial Standards of Practice. David Kershner is a Fellow of the Society of Actuaries. Stephen Oates is an Associate of the Society of Actuaries. We are Enrolled Actuaries, Members of the American Academy of Actuaries, and Fellows of the Conference of Consulting Actuaries. We meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

We are available to discuss this report with you at your convenience. David can be reached at 602-803-6174 and Stephen can be reached at 215-586-1227.

Respectfully submitted,

## Section 1: GASB 75 Information

## OPEB Expense

| Measurement Date | June 30, 2022 <br> June 30, 2023 | June 30, 2021 <br> Reporting Date |
| :--- | :---: | ---: | ---: |
| Sune 30, 2022 |  |  |

The employers' allocation of the OPEB expense for June 30, 2023 reporting is shown in Schedule C in the Appendix.

The difference between projected and actual investment earnings is recognized over 5 years.
The effects of changes in assumptions and differences between expected and actual experience are recognized over the average future working lifetime. This period is:

- 1.3 years as of June 30, 2021 (for the June 30, 2022 measurement date)
- 1.5 years as of June 30, 2020 (for the June 30, 2021 measurement date)

## Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2021, rolled forward to the measurement date of June 30, 2022 and adjusted to reflect updated assumptions. The updated demographic and economic assumptions were adopted by the Board in June 2022 based on the results of an actuarial experience study for the period from July 1, 2017 to June 30, 2021. The new assumptions were adopted to better reflect expected future experience and are effective June 30, 2022.

## Actuarial Cost Method

Entry Age Normal - Level Percentage of Payroll

## Asset Valuation Method

Invested assets are reported at fair value.

## Allocation of Net OPEB Liability

The employers' allocations of net OPEB liability as of the June 30, 2021 and June 30, 2022 measurement dates are shown in Schedule A and Schedule B, respectively, in the Appendix.

## Allocation of Deferred Outflows/Inflows of Resources

The employers' allocation of deferred outflows/inflows of resources as of the June 30, 2022 measurement date is shown in Schedule C in the Appendix.
The chart below provides details of the deferred inflows/outflows as of the June 30, 2022 measurement date:

| Date Created | Type | Original <br> Amortization Period | Deferred <br> (Infiow)/Outfow as of <br> June 30, 2022 |  |
| :---: | :---: | :---: | :---: | :---: |
| June 30, 2019 | Asset Loss | 5 years | $\$$ | $20,400,361$ |
| June 30, 2020 | Asset Loss | 5 years | $\$$ | $98,084,800$ |
| June 30, 2021 | Asset Gain | 5 years | $\$$ | $(1,037,706,000)$ |
| June 30, 2022 | Assumption Change | 1.3 years | $\$$ | $(90,294,462)$ |
| June 30, 2022 | Asset Loss | 5 years | $\$$ | $1,030,848,000$ |
| June 30, 2022 | Liability Gain | 1.3 years | $\$$ | $(13,926,462)$ |

## Allocation of Future Years' Recognition of Deferred Outflows/Inflows

The employers' allocation of recognition of the deferred outflows/inflows as of the June 30, 2022 measurement date for each of the next five fiscal years and thereafter is shown in Schedule D in the Appendix. These amounts include recognition of the deferred outflows/inflows from prior years.

## Allocation Methodology

Amounts for the June 30, 2021 measurement date were allocated to employers based on the present value of contributions for FY2023-FY2039, as determined by projections based on the June 30, 2020 valuation. The contributions for FY2023 reflect those adopted by the Board on October 11, 2021. For years after FY2023, all contribution rates were allocated between pension (GASB 68) and healthcare
(GASB 75) based on the pension and healthcare actuarial accrued liabilities in the June 30, 2020 valuation projections.

Amounts for the June 30, 2022 measurement date were allocated to employers based on the present value of contributions for FY2024-FY2039, as determined by projections based on the June 30, 2021 valuation. The contributions for FY2024 reflect those adopted by the Board on September 15, 2022. For years after FY2024, all contribution rates were allocated between pension (GASB 68) and healthcare (GASB 75) based on the pension and healthcare actuarial accrued liabilities in the June 30, 2021 valuation projections.

## Sensitivity of the net OPEB liability to changes in the discount rate

The table below shows the development of the net OPEB liability as of June 30, 2022 using the discount rate of $7.25 \%$, as well as a discount rate that is one percentage point lower ( $6.25 \%$ ) or one percentage point higher ( $8.25 \%$ ) than the current rate ( $\$$ in thousands):

|  | 1.00\% Decrease (6.25\%) |  | Current Discount Rate (7.25\%) |  | 1.00\% Increase (8.25\%) |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Service cost | \$ | 95,206 | \$ | 73,661 | \$ | 57,623 |
| Interest |  | 510,726 |  | 523,712 |  | 531,600 |
| EGWP rebates |  | 54,052 |  | 54,052 |  | 54,052 |
| Benefit payments |  | $(453,308)$ |  | $(453,308)$ |  | $(453,308)$ |
| Net change to inflows/outflows |  | $(612,998)$ |  | $(515,336)$ |  | $(439,712)$ |
| Net change in total OPEB liability | \$ | $(406,322)$ | \$ | $(317,219)$ | \$ | $(249,745)$ |
| Total OPEB liability-beginning | \$ | 8,106,438 | \$ | 7,218,787 | \$ | 6,481,659 |
| Total OPEB liability-ending (a) | \$ | 7,700,116 | \$ | 6,901,568 | \$ | 6,231,914 |
| Plan fiduciary net position-ending (b) | \$ | 8,869,134 | \$ | 8,869,134 | \$ | 8,869,134 |
| Plan's net OPEB liability (asset)-ending (a)-(b) | \$ | $(1,169,018)$ | \$ | $(1,967,566)$ | \$ | $(2,637,220)$ |

## Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates

The table below shows the development of the net OPEB liability as of June 30, 2022 using the current healthcare cost trend rates, as well as trend rates that are one percentage point lower or one percentage point higher than the current rates (\$ in thousands):

|  | 1.00\% Decrease |  | $\begin{gathered} \text { Current } \\ \text { Trend Rates } \end{gathered}$ |  | 1.00\% Increase |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Service cost | \$ | 64,157 | \$ | 73,661 | \$ | 85,652 |
| Interest |  | 462,243 |  | 523,712 |  | 597,929 |
| EGWP rebates |  | 54,052 |  | 54,052 |  | 54,052 |
| Benefit payments |  | $(453,308)$ |  | $(453,308)$ |  | $(453,308)$ |
| Net change to inflows/outflows |  | $(369,376)$ |  | $(515,336)$ |  | $(701,424)$ |
| Net change in total OPEB liability | \$ | $(242,232)$ | \$ | $(317,219)$ | \$ | $(417,099)$ |
| Total OPEB liability-beginning | \$ | 6,395,369 | \$ | 7,218,787 | \$ | 8,212,438 |
| Total OPEB liability-ending (a) | \$ | 6,153,137 | \$ | 6,901,568 | \$ | 7,795,339 |
| Plan fiduciary net position-ending (b) | \$ | 8,869,134 | \$ | 8,869,134 | \$ | 8,869,134 |
| Plan's net OPEB liability (asset)-ending (a)-(b) | \$ | $(2,715,997)$ | \$ | $(1,967,566)$ | \$ | $(1,073,795)$ |

# Section 2: Actuarial Assumptions and Methods ${ }^{1}$ 

## Description of Actuarial Methods and Valuation Procedures

The funding method used in this valuation was adopted by the Board in October 2006. Changes in methods were adopted by the Board in January 2019 based on the experience study for the period July 1, 2013 to June 30, 2017. The asset smoothing method used to determine valuation assets was changed effective June 30, 2014.

Benefits valued are those delineated in Alaska State statutes as of the valuation date. Changes in State statutes effective after the valuation date are not taken into consideration in setting the assumptions and methods.

## Actuarial Cost Method

Liabilities and contributions shown in the June 30, 2021 actuarial valuation report are computed using the Entry Age Normal Actuarial Cost Method, level percent of pay.
Effective June 30, 2018, the Board adopted a layered UAAL amortization method: Layer \#1 equals the sum of (i) the UAAL at June 30, 2018 based on the 2017 valuation, plus (ii) the FY18 experience gain/loss. Layer \#1 is amortized over the remainder of the 25 -year closed period that was originally established in 2014². Layer \#2 equals the change in UAAL at June 30, 2018 due to the experience study and EGWP implementation. Layer \#2 is amortized over a separate closed 25 -year period starting in 2018. Future layers will be created each year based on the difference between actual and expected UAAL occurring that year, and will be amortized over separate closed 25 -year periods. The UAAL amortization continues to be on a level percent of pay basis. State statutes allow the contribution rate to be determined on payroll for all members, defined benefit and defined contribution member payroll combined.
Projected pension and postemployment healthcare benefits were determined for all active members. Cost factors designed to produce annual costs as a constant percentage of each member's expected compensation in each year from the assumed entry age to the assumed retirement age were applied to the projected benefits to determine the normal cost (the portion of the total cost of the plan allocated to the current year under the method). The normal cost is determined by summing intermediate results for active members and determining an average normal cost rate which is then related to the total payroll of active members. The actuarial accrued liability for active members (the portion of the total cost of the plan allocated to prior years under the method) was determined as the excess of the actuarial present value of projected benefits over the actuarial present value of future normal costs.

The actuarial accrued liability for retired members and their beneficiaries currently receiving benefits, terminated vested members and disabled members not yet receiving benefits was determined as the actuarial present value of the benefits expected to be paid. No future normal costs are payable for these members.

The actuarial accrued liability under this method at any point in time is the theoretical amount of the fund that would have been accumulated had annual contributions equal to the normal cost been made in prior years (it does not represent the liability for benefits accrued to the valuation date). The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over the actuarial value of plan assets measured on the valuation date.

[^1]Under this method, experience gains or losses, i.e., decreases or increases in accrued liabilities attributable to deviations in experience from the actuarial assumptions, adjust the unfunded actuarial accrued liability.

## Valuation of Assets

The actuarial asset value was reinitialized to equal Fair Value of Assets as of June 30, 2014. Beginning in FY15, the asset value method recognizes $20 \%$ of the gain or loss each year, for a period of five years. All assets are valued at fair value. Assets are accounted for on an accrued basis and are taken directly from financial statements audited by KPMG LLP.

## Changes in Methods Since the Prior Valuation

There have been no changes in the asset or valuation methods since the prior valuation.

## Valuation of Retiree Medical and Prescription Drug Benefits

This section outlines the detailed methodology used in the internal model developed by Buck to calculate the initial per capita claims cost rates for the PERS postemployment healthcare plan. Note that the methodology reflects the results of our annual experience rate update for the period from July 1, 2020 to June 30, 2021.

Base claims cost rates are incurred healthcare costs expressed as a rate per member per year. Ideally, claims cost rates should be derived for each significant component of cost that can be expected to require differing projection assumptions or methods (i.e., medical claims, prescription drug claims, administrative costs, etc). Separate analysis is limited by the availability and historical credibility of cost and enrollment data for each component of cost. This valuation reflects non-prescription claims separated by Medicare status, including eligibility for free Part A coverage. Prescription costs are analyzed separately as in prior valuations. Administrative costs are assumed in the final per capita claims cost rates used for valuation purposes, as described below. Analysis to date on Medicare Part A coverage is limited since Part A claim data is not available by individual, nor is this status incorporated into historical claim data.

## Benefits

Medical, prescription drug, dental, vision and audio coverage is provided through the AlaskaCare Retiree Health Plan and is available to employees of the State and subdivisions who meet retirement criteria based on the retirement plan tier in effect at their date of hire. Health plan provisions do not vary by retirement tier or age, except for Medicare coordination for those Medicare-eligible. Dental, vision and audio claims (DVA) are excluded from data analyzed for this valuation because those are retiree-pay all benefits where rates are assumed to be self-supporting. Buck relies upon rates set by a third-party for the DVA benefits. Buck reviewed historical rate-setting information and views contribution rate adjustments made are not unreasonable.

## Administration and Data Sources

The plan was administered by Wells Fargo Insurance Services (acquired by HealthSmart, in January 2012) from July 1, 2009 through December 31, 2013 and by Aetna effective January 1, 2014.

Claims incurred for the period from July 2019 through June 2021 (FY20 through FY21) were provided by the State of Alaska from reports extracted from their data warehouse, which separated claims by Medicare status. Monthly enrollment data for the same period was provided by Aetna.

Aetna also provided census information identifying Medicare Part B only participants. These participants are identified when hospital claims are denied by Medicare; Aetna then flags that participant as a Part B only participant. Buck added newly identified participants to our list of Medicare Part B only participants. Buck assumes that once identified as Part B only, that participant remains in that status until we are notified otherwise.

Aetna provided a snapshot file as of July 1, 2021 of retirees and dependents that included a coverage level indicator. The monthly enrollment data includes double coverage participants. These are participants whereby both the retiree and spouse are retirees from the State and both are reflected with Couple coverage in the enrollment. In this case, such a couple would show up as four members in the monthly enrollment (each would be both a retiree and a spouse). As a result, the snapshot census file was used to adjust the total member counts in the monthly enrollment reports to estimate the number of unique participants enrolled in coverage. Based on the snapshot files from the last two valuations, the total member count in the monthly enrollment reports needs to be reduced by approximately $13 \%$ to account for the number of participants with double coverage.

Aetna does not provide separate experience by Medicare status in standard reporting so the special reports mentioned above from the data warehouse were used this year to obtain that information and incorporate it into the per capita rate development for each year of experience (with corresponding weights applied in the final per capita cost).

## Methodology

Buck projected historical claim data to FY22 for retirees using the following summarized steps:

1. Develop historical annual incurred claim cost rates - an analysis of medical costs was completed based on claims information and enrollment data provided by the State of Alaska and Aetna for each year in the experience period of FY20 through FY21.

- Costs for medical services and prescriptions were analyzed separately, and separate trend rates were developed to project expected future medical and prescription costs for the valuation year (e.g. from the experience period up through FY22).
- Because the reports provided reflected incurred claims, no additional adjustment was needed to determine incurred claims to be used in the valuation.
- An offset for costs expected to be reimbursed by Medicare was incorporated beginning at age 65. Alaska retirees who do not have 40 quarters of Medicare-covered compensation do not qualify for Medicare Part A coverage free of charge. This is a relatively small and closed group. Medicare was applied to State employment for all employees hired after March 31, 1986. For the "no-Part A" individuals who are required to enroll in Medicare Part B, the State is the primary payer for hospital bills and other Part A services. Claim experience is not available separately for participants with both Medicare Parts A and B and those with Part B only. For Medicare Part B only participants, a lower average claims cost was applied to retirees covered by both Medicare Part A and B vs. retirees covered only by Medicare Part B based upon manual rate models that estimate the Medicare covered proportion of medical costs. To the extent that no-Part A claims can be isolated and applied strictly to the appropriate closed group, actuarial accrued liability will be more accurate.
- Based on census data received from Aetna, less than $1 \%$ of the current retiree population was identified as having coverage only under Medicare Part B. We assume that 5\% of actives hired before April 1, 1986 and current retirees who are not yet Medicare eligible will not be eligible for Medicare Part A.
- Based upon a reconciliation of valuation census data to the snapshot eligibility files provided by Aetna as of July 1, 2020, and July 1, 2021, Buck adjusted member counts used for duplicate records where participants have double coverage; i.e. primary coverage as a retiree and secondary coverage as the covered spouse of another retiree. This is to reflect the total cost per distinct individual/member which is then applied to distinct members in the valuation census.
- Buck understands that pharmacy claims reported do not reflect rebates. Based on actual pharmacy rebate information provided by Optum, rebates were assumed to be $19.5 \%$ of prescription drug claims for FY20, 16.2\% of pre-Medicare, and 14.3\% of Medicare prescription drug claims for FY21.

2. Develop estimated EGWP reimbursements - Segal provided estimated 2022 EGWP subsidies, developed with the assistance of OptumRx. These amounts are applicable only to Medicare-eligible participants.
3. Adjust for claim fluctuation, anomalous experience, etc. - explicit adjustments are often made for anticipated large claims or other anomalous experience. FY19 and FY20 experience were compared to assess the impact of COVID-19 and whether an adjustment to FY20 claims was indicated for use in the June 30, 2020 valuation. A material decrease in medical claims during March 2020 to June 2020 was experienced due to COVID-19. Therefore, an adjustment was made for those months to adjust for the decrease that is not expected to continue in future years. There was an observed spike in prescription drug claims in March 2020; however, the FY20 prescription drug experience appears reasonable to use without adjustment for COVID-19. To adjust for the decrease in medical claims due to COVID-19 during the last 4 months of FY20, the per capita cost during the first 8 months was used as the basis for estimating claims that would have occurred in the absence of COVID-19. FY21 experience was also thoroughly reviewed to assess the impact of COVID-19 and whether an adjustment to FY21 claims was appropriate for use in the June 30, 2021 valuation. FY21 medical per capita claims were noticeably lower than expected, so a $4 \%$ load was added to the FY21 medical claims used in the per capita claims cost development to better reflect future expected long-term costs of the plan. Total prescription drug claims experience for FY21 was reasonable and consistent with FY19 and FY20 experience. Therefore, no adjustment was made to FY21 prescription drug claims. Due to group size and demographics, we did not make any additional large claim adjustments. We do blend both Alaska plan-specific and national trend factors as described below. Buck compared data utilized to lag reports and quarterly plan experience presentations provided by the State and Aetna to assess accuracy and reasonableness of data.
4. Trend all data points to the projection period - project prior years' experience forward to FY22 for retiree benefits on an incurred claim basis. Trend factors derived from historical Alaska-specific experience and national trend factors are shown in the table in item 5 below.
5. Apply credibility to prior experience - adjust prior year's data by assigning weight to recent periods, as shown at the right of the table below. The Board approved a change in the weighting of experience periods beginning with the June 30, 2017 valuation as outlined below. Note also that for FY20 to FY21 medical and both years of prescription drugs we averaged projected plan costs using Alaskaspecific trend factors and national trend factors, assigning $75 \%$ weight to Alaska-specific trends and $25 \%$ to national trends. For FY21 to FY22 medical we applied $100 \%$ weight to national trends because the Alaska-specific trends were impacted by COVID-19:

|  | Alaska-Specific and National Average Weighted Trend from <br> Experience Period to Valuation Year |  |  |
| :---: | :---: | :---: | :---: |
| Experience Period | Medical | Prescription | Weighting Factors |
| FY20 to FY21 | 6.3\% Pre-Medicare / 5.2\% Medicare | $7.6 \%$ | $50 \%$ |
| FY21 to FY22 | $8.1 \%$ Pre-Medicare / $4.8 \%$ Medicare | $8.0 \%$ | $50 \%$ |

Trend assumptions used for rate development are assessed annually and as additional/improved reporting becomes available, we will incorporate into rate development as appropriate.
6. Starting in 2022, prior authorization will be required for certain specialty medications. There is no change to the medications that are covered by the plan. Segal provided an estimate of the impact of this change to the DB retiree health plan cost for calendar year 2022. The DB base claims costs for pre-Medicare prescription drug, Medicare prescription drug, and EGWP were adjusted to reflect this change. Additionally, starting in 2022, certain preventive benefits for pre-Medicare participants will now be covered by the plan. Segal provided an estimate of the impact of this change to the DB retiree health plan cost for calendar year 2022. The DB claims cost for pre-Medicare medical was adjusted to reflect this change.
7. Develop separate administration costs - no adjustments were made for internal administrative costs. Third party retiree plan administration fees for FY22 are based upon total fees projected to 2022 by Segal based on actual FY21 fees. The annual per participant per year administrative cost rate for medical and prescription benefits is $\$ 493$.

## Healthcare Reform

Healthcare Reform legislation passed on March 23, 2010 included several provisions with potential implications for the State of Alaska Retiree Health Plan liability. Buck evaluated the impact due to these provisions.
Because the State plan is retiree-only, and was in effect at the time the legislation was enacted, not all provisions of the health reform legislation apply to the State plan. Unlimited lifetime benefits and dependent coverage to age 26 are two of these provisions. We reviewed the impact of including these provisions, but there was no decision made to adopt them, and no requirement to do so.
Because Transitional Reinsurance fees are only in effect until 2016, we excluded these for valuation purposes.
The Further Consolidated Appropriations Act, 2020 passed in December 2019 repealed several healthcare-related taxes, including the Cadillac Tax.
The Tax Cuts and Jobs Act passed in December 2017 included the elimination of the individual mandate penalty and changed the inflation measure for purposes of determining the limits for the High Cost Excise Tax to use chained CPI. It is our understanding the law does not directly impact other provisions of the ACA. While the nullification of the ACA's individual mandate penalty does not directly impact employer group health plans, it could contribute to the destabilization of the individual market and increase the number of uninsured. Such destabilization could translate to increased costs for employers. We have considered this when setting our healthcare cost trend assumptions and will continue to monitor this issue.
We have not identified any other specific provision of health care reform or its potential repeal that would be expected to have a significant impact on the measured obligation. We will continue to monitor legislative activity.

## Data

In accordance with actuarial standards, we note the following specific data sources and steps taken to value retiree medical benefits:

The Division of Retirement and Benefits provided pension valuation census data, which for people currently in receipt of healthcare benefits was supplemented by coverage data from the healthcare claims administrator (Aetna).
Certain adjustments and assumptions were made to prepare the data for valuation:

- All records provided with retiree medical coverage on the Aetna data were included in this valuation and we relied on the Aetna data as the source of medical coverage for current retirees and their dependents.
- Some records in the Aetna data were duplicates due to the double coverage (i.e. coverage as a retiree and as a spouse of another retiree) allowed under the Plan. Records were adjusted for these members so that each member was only valued once. Any additional value of the double coverage (due to coordination of benefits) is small and reflected in the per capita costs.
- Covered children included in the Aetna data were valued until age 23, unless disabled. We assumed that those dependents over 23 were only eligible and valued due to being disabled.
- For individuals included in the pension data expecting a future pension, we valued health benefits starting at the same point that the pension benefit is assumed to start.
We are not aware of any other issues that would be expected to have a material impact on the results and there are no unresolved matters related to the data.
The chart below shows the basis of setting the per capita claims cost assumption, which includes both PERS and TRS.
A. Fiscal 2020

1. Incurred Claims
2. Adjustments for Rx Rebates
3. Net incurred claims
4. Average Enrollment
5. Claim Cost Rate (3) / (4)
6. Trend to Fiscal 2022
7. Fiscal 2022 Incurred Cost Rate (5) x (6)
B. Fiscal 2021
8. Incurred Claims
9. Adjustments for Rx Rebates and COVD (Medical only)
10. Net incurred claims
11. Average Enrollment
12. Claim Cost Rate (3) / (4)
13. Trend to Fiscal 2022
14. Fiscal 2022 Incurred Cost Rate (5) x (6)

| Medical |  |  |  | Prescription Drugs (Rx) |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Pre-Medicare |  | Medicare |  | Pre-Medicare |  | Medicare |  |
| \$ | 15,708 | \$ | 1,619 | \$ | 3,695 | \$ | 3,560 |
|  | 1.39\% |  | 0.00\% |  | -8.67\% |  | -2.41\% |
| \$ | 15,926 | \$ | 1,619 | \$ | 3,375 | \$ | 3,474 |

Following the development of total projected costs, a distribution of per capita claims cost was developed. This was accomplished by allocating total projected costs to the population census used in the valuation. The allocation was done separately for each of prescription drugs and medical costs for the Medicare eligible and pre-Medicare populations. The allocation weights were developed using participant counts by age and assumed morbidity and aging factors. Results were tested for reasonableness based on historical trend and external benchmarks for costs paid by Medicare.

Below are the results of this analysis:
Distribution of Per Capita Claims Cost by Age for the Period July 1, 2021 through June 30, 2022

| Age | Medical and <br> Medicare <br> Parts A \& B | Medical and <br> Medicare <br> Part B Only | Prescription <br> Drug | Medicare <br> EGWP Subsidy |  |  |
| :---: | ---: | ---: | ---: | ---: | ---: | ---: |
| 45 | $\$$ | 9,719 | $\$$ | 9,719 | $\$$ | 2,062 |
| 50 | 0 |  |  |  |  |  |
| 50 | 10,996 | 10,996 | 2,449 | 0 |  |  |
| 55 | 12,441 | 12,441 | 2,908 | 0 |  |  |
| 60 | 14,076 | 14,076 | 3,133 | 0 |  |  |
| 65 | 1,619 | 5,341 | 3,474 | 1,131 |  |  |
| 70 | 1,877 | 6,192 | 3,836 | 1,249 |  |  |
| 75 | 2,176 | 7,178 | 4,235 | 1,379 |  |  |
| 80 | 2,402 | 7,925 | 4,130 | 1,345 |  |  |

## Actuarial Assumptions

The demographic and economic assumptions used in the June 30, 2021 valuation are described below. Unless noted otherwise, these assumptions were adopted by the Board in January 2019 based on the experience study for the period July 1, 2013 to June 30, 2017.

## Investment Return

$7.38 \%$ per year, net of investment expenses.

## Salary Scale

Salary scale rates based upon the 2013-2017 actual experience (see Table 1).
Inflation - $2.50 \%$ per year.
Productivity $-0.25 \%$ per year.

## Payroll Growth

2.75\% per year (inflation + productivity).

## Total Inflation

Total inflation as measured by the Consumer Price Index for urban and clerical workers for Anchorage is assumed to increase $2.50 \%$ annually.

## Mortality (Pre-Commencement)

Mortality rates based upon 2013-2017 actual experience.
RP-2014 employee table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement.

Deaths are assumed to result from occupational causes $75 \%$ of the time for Peace Officer/Firefighters, and $40 \%$ of the time for Others.

## Mortality (Post-Commencement)

Mortality rates based upon the 2013-2017 actual experience.
$91 \%$ of male and $96 \%$ of female rates of RP-2014 healthy annuitant table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement.

## Turnover

Select and ultimate rates based upon the 2013-2017 actual experience (see Tables 2 a and 2 bb ).

## Disability

Incidence rates based on 2013-2017 actual experience (see Tables 3a and 3b). Disability rates cease once a member is eligible for retirement.
Post-disability mortality in accordance with the RP-2014 disabled table, benefit-weighted, rolled back to 2006, and projected with MP-2017 generational improvement. Disabilities are assumed to be occupational $75 \%$ of the time for Peace Officer/Firefighters, and $40 \%$ of the time for Others.

## Retirement

Retirement rates based upon the 2013-2017 actual experience (see Tables 4a and 4b).
Deferred vested members are assumed to retire at their earliest unreduced retirement date.
The modified cash refund annuity is valued as a three-year certain and life annuity.

## Spouse Age Difference

Males are assumed to be three years older than their wives. Females are assumed to be two years younger than husbands.

## Percent Married for Pension

For Others, $75 \%$ of male members and $70 \%$ of female members are assumed to be married. For Peace Officer/Firefighters, $85 \%$ of male members and $60 \%$ of female members are assumed to be married.

## Dependent Spouse Medical Coverage Election

Applies to members who do not have double medical coverage. For Others, $65 \%$ of male members and $60 \%$ of female members are assumed to be married and cover a dependent spouse. For Peace Officer/Firefighters, $75 \%$ of male members and $50 \%$ of female members are assumed to be married and cover a dependent spouse.

## Dependent Children

Benefits for dependent children have been valued only for members currently covering their dependent children. These benefits are only valued through the dependent children's age 23 (unless the child is disabled).

## Contribution Refunds

For Others, $5 \%$ of terminating members with vested benefits are assumed to have their contributions refunded.

For Peace Officers/Firefighters, 10\% of terminating members with vested benefits are assumed to have their contributions refunded.
$100 \%$ of those with non-vested benefits are assumed to have their contributions refunded.

## Imputed Data

Data changes from the prior year which are deemed to have an immaterial impact on liabilities and contribution rates are assumed to be correct in the current year's client data. Non-vested terminations with appropriate refund dates are assumed to have received a full refund of contributions. Active members with missing salary and service are assumed to be terminated with status based on their vesting percentage.

## Active Rehire Assumption

The Normal Cost used for determining contribution rates and in the projections includes a rehire assumption to account for anticipated rehires. The Normal Cost shown in the report includes the following assumptions (which were developed based on the five years of rehire loss experience through June 30, 2017). For projections, these assumptions were assumed to grade to zero uniformly over a 20 -year period.

- Pension: 18.77\%
- Healthcare: 17.09\%

## Active Data Adjustment

No adjustment was made to reflect participants who terminate employment before the valuation date and are subsequently rehired after the valuation date.

## Alaska Cost-of-Living Adjustments (COLA)

Of those benefit recipients who are eligible for the Alaska COLA, $70 \%$ of Others and $65 \%$ of Peace Officers/Firefighters are assumed to remain in Alaska and receive the COLA.

## Postretirement Pension Adjustment (PRPA)

$50 \%$ and $75 \%$ of assumed inflation, or $1.25 \%$ and $1.875 \%$ respectively, is valued for the annual automatic PRPA as specified in the statute.

## Expenses

The investment return assumption is net of investment expenses.

## Part-Time Status

Part-time employees are assumed to earn 1.00 years of credited service per year for Peace Officer/Firefighter and 0.75 years of credited service per year for Other members.

## Re-Employment Option

All re-employed retirees are assumed to return to work under the Standard Option.

## Service

Total credited service is provided by the State. This service is assumed to be the only service that should be used to calculate benefits. Additionally, the State provides claimed service (including Bureau of Indian Affairs Service). Claimed service is used for vesting and eligibility purposes as described in Section 3.

## Final Average Earnings

Final Average Earnings is provided on the data for active members. This amount is used as a minimum in the calculation of the average earnings in the future.

## Per Capita Claims Cost

Sample claims cost rates adjusted to age 65 for FY22 medical and prescription drugs are shown below. The prescription drug costs reflect the plan change to require prior authorization for certain specialty medications. The pre-Medicare medical cost reflects the coverage of additional preventive benefits.

|  | Medical |  | Prescription Drugs |  |
| :--- | ---: | ---: | ---: | :---: |
| Pre-Medicare | $\$$ | 15,926 | $\$$ | 3,375 |
| Medicare Parts A \& B | $\$$ | 1,619 | $\$$ | 3,474 |
| Medicare Part B Only | $\$$ | 5,341 | $\$$ | 3,474 |
| Medicare Part D - EGWP |  | N/A | $\$$ | 1,131 |

Members are assumed to attain Medicare eligibility at age 65. All costs are for the 2022 fiscal year (July 1, 2021 - June 30, 2022).

The EGWP subsidy is assumed to increase in future years by the trend rates shown on the following pages. No future legislative changes or other events are anticipated to impact the EGWP subsidy. If any legislative or other changes occur in the future that impact the EGWP subsidy (which could either increase or decrease the plan's Actuarial Accrued Liability), those changes will be evaluated and quantified when they occur.

## Third Party Administrator Fees

\$493 per person per year; assumed to increase at 4.5\% per year.

## Medicare Part B Only

We assume that $5 \%$ of actives hired before April 1, 1986 and current retirees who are not yet Medicare eligible will not be eligible for Medicare Part A.

## Healthcare Cost Trend

The table below shows the rate used to project the cost from the shown fiscal year to the next fiscal year. For example, 6.3\% is applied to the FY22 pre-Medicare medical claims costs to get the FY23 medical claims costs.

|  | Medical <br> Pre-65 | Medical <br> Post-65 | Prescription <br> Drugs / EGWP |
| :---: | :---: | :---: | :---: |
| FY22 | $6.3 \%$ | $5.4 \%$ | $7.1 \%$ |
| FY23 | $6.1 \%$ | $5.4 \%$ | $6.8 \%$ |
| FY24 | $5.9 \%$ | $5.4 \%$ | $6.4 \%$ |
| FY25 | $5.8 \%$ | $5.4 \%$ | $6.1 \%$ |
| FY26 | $5.6 \%$ | $5.4 \%$ | $5.7 \%$ |
| FY27-FY40 | $5.4 \%$ | $5.4 \%$ | $5.4 \%$ |
| FY41 | $5.3 \%$ | $5.3 \%$ | $5.3 \%$ |
| FY42 | $5.2 \%$ | $5.2 \%$ | $5.2 \%$ |
| FY43 | $5.1 \%$ | $5.1 \%$ | $5.1 \%$ |
| FY44 | $5.1 \%$ | $5.1 \%$ | $5.1 \%$ |
| FY45 | $5.0 \%$ | $5.0 \%$ | $5.0 \%$ |
| FY46 | $4.9 \%$ | $4.9 \%$ | $4.9 \%$ |
| FY47 | $4.8 \%$ | $4.8 \%$ | $4.8 \%$ |
| FY48 | $4.7 \%$ | $4.7 \%$ | $4.7 \%$ |
| FY49 | $4.6 \%$ | $4.6 \%$ | $4.6 \%$ |
| FY50+ | $4.5 \%$ | $4.5 \%$ | $4.5 \%$ |

For the June 30, 2014 valuation and later, the updated Society of Actuaries' Healthcare Cost Trend Model is used to project medical and prescription drug costs. This model estimates trend amounts that are projected out for 80 years. The model has been populated with assumptions that are specific to the State of Alaska.

## Aging Factors

| Age | Medical | Prescription <br> Drugs |
| :---: | :---: | :---: |
| $0-44$ | $2.0 \%$ | $4.5 \%$ |
| $45-54$ | $2.5 \%$ | $3.5 \%$ |
| $55-64$ | $2.5 \%$ | $1.5 \%$ |
| $65-74$ | $3.0 \%$ | $2.0 \%$ |
| $75-84$ | $2.0 \%$ | $-0.5 \%$ |
| $85-94$ | $0.3 \%$ | $-2.5 \%$ |
| $95+$ | $0.0 \%$ | $0.0 \%$ |

## Retired Member Contributions for Medical Benefits

Currently contributions are required for PERS members who are under age 60 and have less than 30 years of service ( 25 for Peace Officer/Firefighter). Eligible Tier 1 members are exempt from contribution requirements. Annual FY22 contributions based on monthly rates shown below for calendar 2022 are assumed based on the coverage category for current retirees. The retiree only rate shown is used for current active and inactive members and spouses in Tier 2 or 3 who are assumed to retire prior to age 60 with less than 30 years of service and who are not disabled. For dependent children, we value $1 / 3$ of the annual retiree contribution to estimate the per child rate based upon the assumed number of children in rates where children are covered.

| Coverage Category | Calendar 2022 Annual Contribution |  | Calendar 2022 Monthly Contribution |  | Calendar 2021 Monthly Contribution |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Retiree Only | \$ | 8,448 | \$ | 704 | \$ | 704 |
| Retiree and Spouse | \$ | 16,896 | \$ | 1,408 | \$ | 1,408 |
| Retiree and Child(ren) | \$ | 11,940 | \$ | 995 | \$ | 995 |
| Retiree and Family | \$ | 20,388 | \$ | 1,699 | \$ | 1,699 |
| Composite | \$ | 12,552 | \$ | 1,046 | \$ | 1,046 |

## Trend Rate for Retired Member Medical Contributions

The table below shows the rate used to project the retired member medical contributions from the shown fiscal year to the next fiscal year. For example, $0.0 \%$ is applied to the FY22 retired member medical contributions to get the FY23 retired member medical contributions.

## Trend Assumptions

| FY22 | $0.0 \%$ |
| :---: | :--- |
| FY23 + | $4.0 \%$ |

Graded trend rates for retired member medical contributions are consistent with the rates used for the June 30, 2020 valuation. Actual FY22 retired member medical contributions are reflected in the valuation.

## Healthcare Participation

$100 \%$ system paid of members and their spouses are assumed to elect healthcare benefits as soon as they are eligible. $20 \%$ of non-system paid members and their spouses are assumed to elect healthcare benefits as soon as they are eligible.

## Changes in Assumptions Since the Prior Valuation

Healthcare claim costs are updated annually. The amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from plan assets.

Table 1: Salary Scale

| Peace Officer / Firefighter | Others |  |  |

## Section 3: Summary of Plan Provisions

## Effective Date

January 1, 1961, with amendments through June 30, 2021. Chapter 82, 1986 Session Laws of Alaska, created a two tier retirement system. Members who were first hired under PERS before July 1, 1986 (Tier 1) are eligible for different benefits than members hired after June 30, 1986 (Tier 2). Chapter 4, 1996 Session Laws of Alaska created a third tier for members who were first hired after June 30, 1996 (Tier 3). Chapter 9, 2005 Session Laws of Alaska, closed the plan to new members hired after June 30, 2006.

## Administration of Plan

The Commissioner of Administration or the Commissioner's designee is the administrator of the system. The Attorney General of the state is the legal counsel for the system and shall advise the administrator and represent the system in legal proceedings.

Prior to June 30, 2005, the Public Employees' Retirement Board prescribed policies and adopted regulations and performed other activities necessary to carry out the provisions of the system. The Alaska State Pension Investment Board, Department of Revenue, Treasury Division was responsible for investing PERS funds.
On July 27, 2005, Senate Bill 141, enacted as Chapter 9, 2005 Session laws of Alaska, replaced the Public Employees' Retirement Board and the Alaska State Pension Investment Board with the Alaska Retirement Management Board.

## Employers Included

Currently there are 151 employers participating in PERS, including the State of Alaska and 150 political subdivisions and public organizations. Two additional political subdivisions participate in PERS for healthcare benefits only.

## Membership

PERS membership is mandatory for all permanent full-time and part-time employees of the State of Alaska and participating political subdivisions and public organizations, unless they are specifically excluded by Alaska Statute or employer participation agreements. Employees participating in the University of Alaska's Optional Retirement Plan or other retirement plans funded by the State are not covered by PERS. Elected officials may waive PERS membership.

Certain members of the Alaska Teachers' Retirement System (TRS) are eligible for PERS retirement benefits for their concurrent elected public official service with municipalities. In addition, employees who work half-time in PERS and TRS simultaneously are eligible for half-time PERS and TRS credit.

Senate Bill 141, signed into law on July 27, 2005, closes the Plan effective July 1, 2006, to new members first hired on or after July 1, 2006.

## Credited Service

Permanent employees who work at least 30 hours a week earn full-time credit; part-time employees working between 15 and 30 hours a week earn partial credit based upon the number of hours worked. Members receiving PERS occupational disability benefits continue to earn PERS credit while disabled. Survivors who are receiving occupational death benefits continue to earn PERS service credit while occupational survivor benefits are being paid.

Members may claim other types of service, including:

- part-time State of Alaska service rendered after December 31, 1960, and before January 1, 1976;
- service with the State, former Territory of Alaska, or U.S. Government in Alaska before January 1, 1961;
- past Peace Officer, correctional officer, fire fighter, and special officer service after January 1, 1961;
- military service (not more than five years may be claimed);
- temporary service after December 31, 1960;
- elected official service before January 1, 1981;
- Alaska Bureau of Indian Affairs service;
- past service rendered by employees who worked half-time in PERS and TRS simultaneously;
- leave without pay service after June 13, 1987, while receiving Workers' Compensation;
- Village Public Safety Officer service; and
- service as a temporary employee of the legislature before July 1, 1979, but this service must have been claimed no later than July 1, 2003, or by the date of retirement, if sooner (not more than ten years may be claimed).
Except for service before January 1, 1961, with the State, former Territory of Alaska, or U.S. Government in Alaska, contributions are required for all past service.
Past employment with participating political subdivisions that occurred before the employers joined PERS is creditable if the employers agree to pay the required contributions.

At the election of certain PERS members, certain service may be credited in the same fashion as members in TRS.

Members employed as dispatchers or within a state correctional facility may, at retirement, elect to convert their dispatcher or correctional facility service from "all other" service to Peace Officer/Firefighter service and retire under the 20 year retirement option. Members pay the full actuarial cost of conversion.

## Employer Contributions

PERS employers contribute the amounts required, in addition to employees' contributions, to fund the benefits of the system.
The normal cost rate is a uniform rate for all participating employers (less the value of members' contributions).

The past service rate is a uniform rate for all participating employers to amortize the unfunded past service liability with payments that are a level percentage of payroll amount over a closed 25 -year period starting June 30, 2014. Effective June 30, 2018, each future year's unfunded service liability is separately amortized on a level percent of pay basis over 25 years.

Employer rates cannot be less than the normal cost rate.
Pursuant to AS 39.35.255 effective July 1, 2008 and subsequently amended on July 1, 2021, each nonstate PERS employer will pay a simple uniform contribution rate of $22 \%$ of non-state member payroll and
the State as an employer will pay the total contribution rate, adopted by the Board, of State member payroll.

## Additional State Contributions

Pursuant to AS 39.35.280 effective July 1, 2008, the State shall contribute an amount (in addition to the State contribution as an employer) that when combined with the employer contribution ( $22 \%$ of total DB and DCR payroll, less employer contributions to DCR) will be sufficient to pay the total contribution rate adopted by The Alaska Retirement Management Board.

Effective July 1, 2021 pursuant to Senate Bill 55, the State-as-an-Employer contributes the Actuarially Determined Contribution rate based on the payroll of its employees, and the Additional State Contributions are based on the payroll of non-State employees only.

## Member Contributions

Mandatory Contributions: Peace Officer/Firefighter members are required to contribute $7.5 \%$ of their compensation; all Others contribute $6.75 \%$. Those all Others who have elected to have their service calculated under TRS rules contribute $9.76 \%$ of their compensation. Members' contributions are deducted from gross wages before federal income taxes are withheld.
Contributions for Claimed Service: Member contributions are also required for most of the claimed service described above.
Voluntary Contributions: Members may voluntarily contribute up to $5 \%$ of their salary on an aftertax basis. Voluntary contributions are recorded in a separate account and are payable to the:
a. member in lump sum payment upon termination of employment;
b. member's beneficiary if the member dies; or
c. member in a lump sum, life annuity, or payments over a designated period of time when the member retires.
Interest: Members' contributions earn 4.5\% interest, compounded semiannually on June 30 and December 31.
Refund of Contributions: Terminated members may receive refunds of their member contribution accounts which includes their mandatory and voluntary contributions, indebtedness payments, and interest earned. Terminated members' accounts may be attached to satisfy claims under Alaska Statute 09.38.065, federal income tax levies, and valid Qualified Domestic Relations Orders.
Reinstatement of Contributions: Refunded accounts and the corresponding PERS service may be reinstated upon reemployment in PERS prior to July 1, 2010. Interest accrues on refunds until paid in full or members retire.

## Retirement Benefits

## Eligibility:

a. Members, including deferred vested members, are eligible for normal retirement at age 55 or early retirement at age 50 if they were hired before July 1, 1986 (Tier 1), and age 60 or early retirement at age 55 if they were hired on or after July 1, 1986 (Tiers 2 \& 3). Additionally, they must have at least:
(i) five years of paid-up PERS service;
(ii) 60 days of paid-up PERS service as employees of the legislature during each of five legislative sessions and they were first hired by the legislature before May 30, 1987;
(iii) 80 days of paid-up PERS service as employees of the legislature during each of five legislative sessions and they were first hired by the legislature after May 29, 1987;
(iv) two years of paid-up PERS service and they are vested in TRS; or
(v) two years of paid-up PERS service and a minimum three years of TRS service to qualify for a public service benefit.
b. Members may retire at any age when they have:
(i) 20 paid-up years of PERS Peace Officer/Firefighter service; or
(ii) 30 paid-up years of PERS "all other" or "elected official" service.

## Benefit Type

Lifetime benefits are paid to members. Eligible members may receive normal, unreduced benefits when they (1) reach normal retirement age and complete the service required; or (2) satisfy the minimum service requirements under the "20 and out" or "30 and out" provisions. Members may receive early, reduced benefits when they reach early retirement age and complete the service required. Benefits are reduced by $6 \%$ per year prior to a member's normal retirement date.
Members may select a joint and survivor option. Members who entered PERS prior to July 1, 1996 may also select a 66-2/3 last survivor option or a level income option. Under these options and early retirement, benefits are actuarially adjusted so that members receive the actuarial equivalents of their normal benefit amounts.

## Benefit Calculations

Retirement benefits are calculated by multiplying the average monthly compensation (AMC) times credited PERS service times the percentage multiplier. The AMC is determined by averaging the salaries earned during the five highest (three highest for Peace Officer/Firefighter members or members hired prior to July 1, 1996) consecutive payroll years. Members must earn at least 115 days of credit in the last year worked to include it in the AMC calculation. PERS pays a minimum benefit of $\$ 25.00$ per month for each year of service when the calculated benefit is less.
The percentage multipliers for Peace Officer/Firefighter members are $2 \%$ for the first ten years of service and $2.5 \%$ for all service over ten years.
The percentage multipliers for all Others are $2 \%$ for the first ten years, $2.25 \%$ for the next ten years, and $2.5 \%$ for all remaining service earned on or after July 1, 1986. All service before that date is calculated at $2 \%$.

Salaries are subject to compensation limits under IRC 401(a)(17) for members first hired on or after July 1, 1996. Retirement benefit amounts are subject to IRC 415(b) limits regardless of hire date.

## Indebtedness

Members who terminate and refund their PERS contributions are not eligible to retire, unless they return to PERS employment and pay back their refunds plus interest or accrue additional service which qualifies them for retirement. PERS refunds must be paid in full if the corresponding service is to count toward the minimum service requirements for retirement. Refunded PERS service is included in total service for the purpose of calculating retirement benefits. However, when refunds are not completely paid before retirement, benefits are actuarially reduced for life. Indebtedness balances may also be created when a member purchases qualified claimed service.

## Reemployment of Retired Members

Retirement and retiree healthcare benefits are suspended while retired members are reemployed under e PERS. During reemployment, members earn additional PERS service and contributions are withheld from their wages. A member who retired with a normal retirement benefit can elect to waive payment of PERS contributions. The waiver allows the member to continue receiving the retirement benefit during the period of reemployment. Members who elect the waiver option do not earn additional PERS service. The Waiver Option first became effective July 1, 2005 and applies to reemployment periods after that date. The Waiver Option is not available to members who retired early or under the Retirement Incentive Programs (RIPs). The Waiver Option is no longer available after June 30, 2009.

Members retired under the Retirement Incentive Programs (RIPs) who return to employment will:
a. forfeit the three years of incentive credits that they received;
b. owe PERS $150 \%$ of the benefits that they received for state and political subdivision members, and 110\% for school district employees, under the 1996-2000 RIP, which may include costs for health insurance, excluding amounts that they paid to participate for the 1986 and 1989 RIPs. Under prior RIPs, the penalty is $110 \%$ of the benefits received; and
c. be charged $7 \%$ interest from the date that they are reemployed until their indebtedness is paid in full or they retire again. If the indebtedness is not completely paid, future benefits will be actuarially reduced for life.

Employers make contributions to the unfunded liability of the plan on behalf of rehired retired members at the rate the employer is making contributions to the unfunded liability of the plan for other members.

## Postemployment Healthcare Benefits

Major medical benefits are provided to retirees and their surviving spouses by PERS for all employees hired before July 1, 1986 (Tier 1) and disabled retirees. Employees hired after June 30, 1986 (Tier 2) and their surviving spouses with 5 years of credited service (or 10 years of credited service for those first hired after June 30, 1996 (Tier 3)) must pay the full monthly premium if they are under age 60 and will receive benefits paid by PERS if they are over age 60. Tier 3 Members with between 5 and 10 years of credited service must pay the full monthly premium regardless of their age. Tier 2 and Tier 3 Members with less than 5 years of credited service are not eligible for postemployment healthcare benefits. Tier 2 Members who are receiving a conditional benefit and are age eligible are eligible for postemployment healthcare benefits. In addition, Peace Officers and their surviving spouses with 25 years of Peace Officer membership service, Other employees and their surviving spouses with 30 years of membership service, and any disabled member receive benefits paid by PERS, regardless of their age or date of hire.
Medical, prescription drug, dental, vision and audio coverage is provided through the AlaskaCare Retiree Health Plan. Health plan provisions do not vary by retirement tier or age, except for Medicare coordination. Participants in dental, vision, and audio coverage pay a full self-supporting rate and those benefits are not included in this valuation.

Starting in 2022, prior authorization will be required for certain specialty medications for all participants. There is no change to the medications that are covered by the plan.

Starting in 2022, certain preventive benefits for pre-Medicare participants will now be covered by the plan.
Surviving spouses continue coverage only if a pension payment form that provided survivor benefits was elected. Alternate payees (i.e. individuals who are the subject of a domestic relations order or DRO) are allowed to participate in the plan but must pay the full cost.
Where premiums are required prior to age 60, the valuation bases this payment upon the age of the retiree.

Participants in the defined benefit plan are covered under the following benefit design:

| Plan Feature | Amounts |
| :--- | :---: |
| Deductible (single/family) | $\$ 150 / \$ 450$ |
| Coinsurance - most services | $20 \%$ |
| Outpatient surgery/testing | $0 \%$ |
| Maximum Out-of-Pocket (single/family, excl. deductible) | $\$ 800 / \$ 2,400$ |
| Rx Copays (generic/ brand/mail-order), does not apply to OOP max | $\$ 4 / \$ 8 / \$ 0$ |
| Lifetime Maximum | $\$ 2,000,000$ |

The plan coordinates with Medicare on a traditional Coordination of Benefits Method. Starting in 2019, the prescription drug coverage is through a Medicare Part D EGWP arrangement.

## Disability Benefits

Monthly disability benefits are paid to permanently disabled members until they die, recover or become eligible for normal retirement. Members are appointed to normal retirement on the first of the month after they become eligible.

## Occupational Disability

Members are not required to satisfy age or service requirements to be eligible for occupational disability. Monthly benefits are equal to $40 \%$ of their gross monthly compensation on the date of their disability. Members on occupational disability continue to earn PERS service until they become eligible for normal retirement. Peace Officer/Firefighter members may elect to retain the disability benefit formula for the calculation of their normal retirement benefits.

At the time a disabled Peace Officer/Firefighter member retires, the retirement benefit will be increased by a percentage equal to the total cumulative percentage that has been applied to the disability benefit.

## Non-occupational Disability

Members must be vested (five paid up years of PERS service) to be eligible for non-occupational disability benefits. Monthly benefits are calculated based on the member's average monthly compensation and PERS service on the date of termination from employment because of disability. Members do not earn PERS service while on non-occupational disability.

## Death Benefits

Monthly death benefits may be paid to a spouse or dependent children upon the death of a member. If monthly benefits are not payable under the occupational and non-occupational death provisions, the designated beneficiary receives the lump sum benefit described below.

## Occupational Death

When an active member (vested or non-vested) dies from occupational causes, a monthly survivor's pension may be paid to the spouse. The pension equals $40 \%$ of the member's gross monthly compensation on the date of death or disability, if earlier. If there is no spouse, the pension may be paid to the member's dependent children. On the member's normal retirement date, the benefit converts to a normal retirement benefit. The normal benefit is based on the member's salary on the date of death and service, including service accumulated from the date of the member's death to the normal retirement date. Survivors of Peace Officer/Firefighter members receive the greater of $50 \%$ of the member's gross monthly compensation on the date of death or disability, or $75 \%$ of the member's monthly normal retirement benefit (including service projected to Normal Retirement). If the member is unmarried with no children, a refund of contributions is payable to the estate.

## Death after Occupational Disability

When a member dies while occupationally disabled, benefits are paid as described above in Occupational Death.

## Non-occupational Death

When a vested member dies from non-occupational causes, the surviving spouse may elect to receive a monthly $50 \%$ joint and survivor benefit or a lump sum benefit. The monthly benefit is calculated on the member's average monthly compensation and PERS service at the time of termination or death.

## Lump Sum Non-occupational Death Benefit

Upon the death of a member who has less than one year of service, the designated beneficiary receives the member's contribution account, which includes mandatory and voluntary contributions, indebtedness payments, and interest earned. If the member has more than one year of PERS service or is vested, the beneficiary also receives $\$ 1,000$ and $\$ 100$ for each year of PERS service.

## Death After Retirement

When a retired member dies, the designated beneficiary receives the member's contribution account, less any benefits already paid and the member's last benefit check. If the member selected a survivor option at retirement, the eligible spouse receives continuing, lifetime monthly benefits.

## Postretirement Pension Adjustments

Postretirement pension adjustments (PRPAs) are granted annually to eligible benefit recipients when the consumer price index (CPI) for urban wage earners and clerical workers for Anchorage increases during the preceding calendar year. PRPAs are calculated by multiplying the recipient's base benefit, including past PRPAs, but excluding the Alaska COLA, times:
a. $75 \%$ of the CPI increase in the preceding calendar year or $9 \%$, whichever is less, if the recipient is at least age 65 or on PERS disability; or
b. $50 \%$ of the CPI increase in the preceding calendar year or $6 \%$, whichever is less, if the recipient is at least age 60 , or under age 60 if the recipient has been receiving benefits for at least five years.

Ad-hoc PRPAs, up to a maximum of 4\%, may be granted to eligible recipients who were first hired before July 1, 1986 (Tier 1) if the CPI increases and the funded ratio is at least $105 \%$.

In a year where an ad-hoc PRPA is granted, eligible recipients will receive the higher of the two calculations.

## Alaska Cost of Living Allowance

Eligible benefit recipients who reside in Alaska receive an Alaska COLA equal to $10 \%$ of their base benefits or $\$ 50$, whichever is more. The following benefit recipients are eligible:
a. members who first entered PERS before July 1, 1986 (Tier 1) and their survivors;
b. members who first entered PERS after June 30, 1986 (Tiers $2 \& 3$ ) and their survivors if they are at least age 65; and
c. all disabled members.

## Changes in Benefit Provisions Valued Since the Prior Valuation

Starting in 2022, prior authorization will be required for certain specialty medications for all participants, and certain preventive benefits for pre-Medicare participants will now be covered by the plan.
Under SB 55 that was effective July 1, 2021: (i) The State-as-an-Employer contributes the full actuarial contribution rate based on the DB/DCR payroll of its employees (which is approximately $50 \%$ of the total PERS DB/DCR payroll); (ii) Non-State employers continue to contribute $22 \%$ of their DB/DCR payroll; (iii) the Additional State Contributions are based on the excess of the DB actuarial contribution rate and the DB contributions made by non-State employers.
There were no other changes in benefit provisions since the prior valuation.

[^0]:    ${ }^{1}$ Through FY2039

[^1]:    ${ }^{1}$ Used to determine June 30, 2021 funding assets and liabilities, and contribution rates.
    ${ }^{2}$ Layer \#1 is referred to as "initial amount" in Sections 1.2 and 1.3 in the 6/30/2021 valuation report.

[^2]:    Same as FY20 for certain employers who have zero present value of future
    ontributions. All other employers are allocated the remaining $99.98765 \%$ based on present value of future contributions.
