The Honorable Mike Dunleavy, Governor
Members of the Alaska State Legislature
Alaska Retirement Management Board
Employers and Plan Members

We are pleased to present the Annual Comprehensive Financial Report (ACFR) of the Teachers’ Retirement System (TRS) (System) for the fiscal year ended June 30, 2021. The ACFR is intended to fulfill the legal requirements of Alaska Statute (AS) 14.25.004(a)(8).

The ACFR provides comprehensive information on the financial operations of the System for the fiscal year. Responsibility for the accuracy, completeness, and fairness of the information presented rests with the management of the System. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of operations of the System for the year ended June 30, 2021. All disclosures necessary to enable the reader to gain an understanding of the System’s activities have been included.

KPMG LLP, Certified Public Accountants, has issued an unmodified opinion on the System’s basic financial statements for the year ended June 30, 2021. The Independent Auditors’ Report is located at the beginning of the Financial Section of this report.

The management’s discussion and analysis (MD&A) is also located in the Financial Section of this report. The MD&A provides an analytical overview of the financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

The ACFR is divided into five sections:

- **Introductory Section**, which contains the letter of transmittal, the organizational chart of the Division, and a list of the members serving on the Alaska Retirement Management Board (Board);

- **Financial Section**, which contains the Independent Auditor’s Report, MD&A, basic financial statements, required supplementary information, and additional information;
Introduction Section

- **Investment Section**, which contains a report prepared by the investment consultant, a report on investment activity, investment results, and various investment schedules;

- **Actuarial Section**, which contains the Actuarial Certification letter and the results of the most current annual actuarial valuation; and

- **Statistical Section**, which includes additional information related to financial trends, demographic and economic information, and operating information.

Profile of the System

The System was established in 1955 to provide pension benefits to teachers and other eligible participants. Post-employment health care benefits were added July 1, 1975. Senate Bill 141, signed into law on July 27, 2005, closed the Defined Benefit (DB) Plan effective July 1, 2006, to new members and created a Defined Contribution Retirement (DCR) Plan for members first hired on or after July 1, 2006. Beginning in fiscal year 2007, the System consists of: (1) the DB Plan and (2) the DCR Plan. This report includes both plans. The DB Plan includes the pension plan and the Alaska Retiree Health Care Trust (Tiers I and II). The DCR Plan includes the defined contribution retirement trust, occupational death and disability plan, retiree major medical plan, and the health reimbursement arrangement plan (Tier III).

Reporting Entity

The System is considered a component unit of the State of Alaska (State) for financial reporting purposes. Due to the closeness of the System’s relationship to the State, it is included in the State ACFR as a fiduciary fund.

The Commissioner of the Department of Administration, appointed by the Governor, is responsible for administering the System. In order to meet the statutory requirements of administering the System, the Commissioner appoints the Plan Administrator of the Division of Retirement and Benefits (Division). The Plan Administrator is responsible for the daily operations of the System.

The Board, constituted effective October 1, 2005, replaced the Teachers’ Retirement Board (effective July 1, 2005) and the Alaska State Pension Investment Board (effective October 1, 2005).

The Board is responsible for:

- adopting investment policies and developing investment objectives;

- providing a range of investment options and establishing the rules by which participants can direct their investments among those options, when applicable;

- establishing crediting rates for members’ individual contribution accounts, when applicable;

- assisting in prescribing policies for the proper operation of the System;

- coordinating with the System Administrator to have actuarial valuations performed;

- reviewing actuarial assumptions and conducting experience analyses;
• contracting for an independent audit of actuarial valuations and external performance calculations; and

• reporting the financial condition of the Systems to the Governor, Legislature, and individual employers participating in the System.

Major Initiatives / Changes

The System continues making progress on several on-going projects. Most of these efforts are focused on improving the following: customer service, technology, methods for employers submitting information, methods for members to obtain information, and continued compliance with Governmental Accounting Standards Board (GASB) accounting requirements, as applicable. While COVID-19 continues to impact day-to-day and face-to-face interaction with members and employers, we continue providing via teleworking and hybrid telework arrangements the necessary services needed to meet stakeholder demands while maintaining appropriate security and safety measures.

The System is in the second year of a major member benefits system upgrade. The Division signed a contract with Sagitec, an industry leader in pension and healthcare software systems. The Division branded the new system Benefits and Retirement System, or BEARS. Recently, Sagitec presented the first of three pilot demonstrations of modules designed and created since the inception of the project. Staff is excited about this new system, the enhancements it provides, and looks forward to sharing more information with members and employers as we work toward implementation in 2023.

The System strives to offer best in class health care benefits balanced by strong financial management and cost initiatives that focus on value. Two examples are (1) the implementation of preventive care coverage in the retiree health plan and (2) implementation of specialty pharmacy management programs in the employee and retiree health plans. Both changes result in valuable medical coverage to the membership while striving to contain rising healthcare costs that impact the System.

Under the guidance of Director Ajay Desai, the System continues to assess and retool its communication efforts, including printed handbooks, newsletters, and website content. The System developed new employee videos for employers’ use and plan information easily accessible online by members. While technology has enhanced our outreach, it does not replace in-person efforts to meet, discuss, and plan member benefits. The System strives to ensure that all communication material is clear, accurate, and user-friendly.

The System strives to provide the highest degree of customer service to all members. The Division continues to enhance and develop the central Member Services Section with the goals of improving phone service, faster processing of all customer requests, and improving member education services.

The System offers a broad array of fairs, town halls, and seminars as safely as possible for both members and employers. These efforts are directed at assisting employers with successful marketing of the plans, educating members about all benefits available from early career to retirement, encouraging healthy living, and how to best use the health plan.

Funding Requirements

The System’s consulting actuary, Buck Global LLC, presented the results of the June 30, 2020, actuarial valuation report to the Plan Administrator, Division, and the Board. The assumptions and benefits are explained in the Actuarial Section of this report.

Based on the most recent valuation report dated May 20, 2021, the System’s DB Plan has a funding ratio (actuarial value of DB Plan assets divided by actuarial liabilities for pension and postemployment healthcare benefits) of 86.6%. The DB Plan’s unfunded actuarial accrued liability (actuarial liability minus actuarial value of DB plan assets) totals approximately
$1.3 billion. The unfunded liability continues to be addressed at all levels of the State. The Governor’s budget proposes to provide funding to System’s employers in order to maintain an appropriate level of employer contributions while also paying the actuarially determined contribution rate adopted by the Board.

**Investments**

On June 30, 2021, the DB Plan’s investment portfolio was valued at $10.4 billion and earned an average 27.65% return for the fiscal year ended June 30, 2021. The DCR Plan’s investment portfolio was valued at $1.1 billion for the fiscal year ended June 30, 2021. Over the past five years ending June 30, 2021, the DB Plan’s investments earned an 11.87% return. The Board has statutory oversight of the System’s investments and the Department of Revenue, Treasury Division, provides staff for the Board. Actual investing is performed by investment officers in the Treasury Division or by contracted external investment managers. The Board reviews and updates investment policies and strategies and is responsible for safeguarding invested assets.

**Accounting System**

This ACFR has been prepared to conform to the principles of accounting and reporting established by the GASB. Specific accounting treatments are detailed in the Notes to Financial Statements found in the Financial Section of this report.

**Internal Controls**

Division management is responsible for establishing and maintaining a system of internal controls to protect System assets from loss, theft, or misuse and to ensure adequate accounting data is compiled for the preparation of financial statements in conformity with generally accepted accounting principles. The cost of internal control should not exceed anticipated benefits; the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

**Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the System for its ACFR for the fiscal year ended June 30, 2020. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards of preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government entity must publish an easily readable and efficiently organized ACFR. This report must satisfy both U.S. generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. The Division is confident our current ACFR continues to meet the Certificate of Achievement Program’s requirements and are submitting it to the GFOA for consideration.

Additionally, the Public Pension Coordinating Council (PPCC) awarded the Public Pension Standards Award for Funding and Administration certificate to the Division for the fiscal year ended June 30, 2021. This award signifies that the Alaska TRS complies with the standard benchmarks for public defined benefit systems in the United States. The standards require a high level for the following: comprehensive benefit program, funding adequacy, accepted actuarial and audit practices, investment policy and evaluation, and member communications.
The Public Pension Standards Award for Funding and Administration certificate is valid for a period of one year. The Division is confident the System will continue to meet the standards award requirements and will apply to the PPCC for consideration in 2022.

Acknowledgements

The preparation of this report is made possible by the dedicated services of the staff of the Department of Administration, Division of Retirement and Benefits and Division of Finance; Department of Law; and the Department of Revenue, Treasury Division. This report is intended to provide complete and reliable information as a basis for making management decisions, as a means of determining compliance with legal provisions, and as a means of determining responsible stewardship of the System’s financial resources.

The report is available on the web at http://doa.alaska.gov/drb/trs/employee/resources/CAFR.html and mailed to those who submit a formal request. This report forms the link between the System and the membership. The cooperation of the membership contributes significantly to the success of the System. We hope the employers and plan members find this report informative.

We are grateful to the Alaska Retirement Management Board, staff, advisors, and to the many people who have diligently worked to assure the successful operation of the System.

Respectfully submitted,
