Independent Auditors' Report

The Division of Retirement and Benefits and State of Alaska Department of Administration State of Alaska Retiree Health Fund:

Opinion

We have audited the financial statements of the Retiree Health Fund (the Fund) of the State of Alaska, as of and for the years ended June 30, 2024 and 2023, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Fund, as of June 30, 2024 and 2023, and the changes in its financial position and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the State of Alaska and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Fund and do not purport to, and do not, present fairly the financial position of the State of Alaska, as of June 30, 2024 and 2023, the changes in its financial position, or, where applicable, its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
 the State of Alaska's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Fund's financial statements. The supplementary schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Anchorage, Alaska October 16, 2024

(An Enterprise Fund of the State of Alaska)

Management's Discussion and Analysis (Unaudited)

June 30, 2024 and 2023

This section presents management's discussion and analysis (MD&A) of the State of Alaska Retiree Health Fund's (the Fund) financial condition and performance for the years ended June 30, 2024 and 2023. This section is presented as a narrative overview and analysis. Please read the MD&A in conjunction with the financial statements and notes to financial statements to better understand the financial condition and performance of the Fund during the fiscal years ended June 30, 2024 and 2023. Information for fiscal year 2022 is presented for comparative purposes.

Financial Highlights

The Fund's financial highlights for the year ended June 30, 2024 were as follows:

- The Fund's unrestricted net position increased by \$86.7 million during fiscal year 2024.
- The Fund's health premiums totaled \$93.0 million, an increase of \$1.5 million from fiscal year 2023.
- The Fund's net investment income was \$78.2 million, an increase of \$13.3 million when compared to fiscal year 2023.
- The Fund's benefit expenses totaled \$81.3 million, an increase of \$13.5 million from fiscal year 2023.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Fund's basic financial statements. The Fund's basic financial statements are composed of four components: (1) statements of net position; (2) statements of revenue, expenses, and changes in net position; (3) statements of cash flows; and (4) notes to financial statements.

Statements of net position – These statements present information regarding the Fund's assets, liabilities, and resulting net position. These statements reflect the Fund's investments at fair value, along with cash and cash equivalents, receivables, and other assets less liabilities at June 30, 2024 and 2023.

Statements of revenue, expenses, and changes in net position – These statements present how the Fund's net position changed during the fiscal years ended June 30, 2024 and 2023, as a result of health premiums, net investment income, healthcare benefits, and operating expenses.

Statements of cash flows – These statements present the Fund's cash flows from operations and investing activities. The Fund presents its cash flows statement using the direct method for reporting cash received and disbursed during the fiscal years ended June 30, 2024 and 2023.

The above statements represent resources available for investment and payment of benefits as of June 30, 2024 and 2023, and the sources and uses of those funds during fiscal years 2024 and 2023.

Notes to financial statements – The notes to financial statements are an integral part of the financial statements and provide additional detailed information and schedules that are essential to a full understanding of the Fund's financial statements.

(An Enterprise Fund of the State of Alaska)

Management's Discussion and Analysis (Unaudited)

June 30, 2024 and 2023

Supplemental schedules – Supplemental schedules include detailed information on the underlying individual funds that comprise the Fund and are composed of three components: (1) combining statement of net position; (2) combining statement of revenue, expenses, and changes in net position; and (3) combining statement of cash flows.

Net position - unrestricted, end of year \$	827,181,904	740,521,781	86,660,123	11.7% \$	655,223,119

Financial Analysis of the Fund

The statements of net position as of June 30, 2024 and 2023 show a net position of \$827,181,904 and \$740,521,781, respectively. The entire amount is available to cover the Fund's obligation to pay healthcare benefits for its members and their beneficiaries.

This represents an increase in total net position of \$86,660,123 or 11.7% from fiscal year 2023 to 2024, and an increase of \$85,298,662 or 13.0% from fiscal year 2022 to 2023. The fiscal year 2024 increase is attributed to the Long-Term Care (LTC) plan with increases in premiums collected as well as a significant increase in investment income, offset partly by an increase in operating loss from the Dental, Vision, and Audio (DVA) plan. The increase in fiscal year 2023 is attributed to the LTC plan with an increase in premiums collected and increases in both interest and dividends.

Premiums are collected monthly from retirees to cover members, dependents, and beneficiaries. Over the long term, healthcare premiums collected for the major medical; DVA; and LTC funds are expected to cover all claims costs. It is anticipated that there will continue to be increases in future healthcare costs and these funds must continue to accumulate assets to meet current and future claims costs.

(An Enterprise Fund of the State of Alaska)

Management's Discussion and Analysis (Unaudited)

June 30, 2024 and 2023

The investment of fund assets is a long-term undertaking. On an annual basis, the Commissioner of Revenue reviews the asset allocation policies related to fund assets and adopts an asset allocation strategy to ensure the asset mix will remain at an optimal risk/return level given the Fund's constraints and objectives.

During fiscal years 2024 and 2023, the asset allocation for the major medical fund was 100% Short-term Fixed Income Fund and the asset allocation for the DVA fund was 100% General Fund and Other Nonsegregated Investments (GeFONSI). The asset allocation for the LTC fund was as follows:

	2024	4	2023 LTC		
	LTC	;			
	Allocation	Range	Allocation	Range	
Broad market fixed income pool	52.0%	± 5	37.0%	± 5	
Domestic equity pool	25.0	± 5	35.0	± 5	
International equity pool	18.0	± 5	22.0	± 5	
Real Assets	4.0	± 3	5.0	± 5	
Short-term fixed income pool	1.0	- 1 / + 2	1.0	- 1 / + 2	
Total	100.0%		100.0%		

Insurance Premium Calculations

The overall objective of the Fund is to have sufficient funds to meet healthcare benefit costs. The insurance premiums are recommended each year by the Division of Retirement and Benefits' (the Division) benefit consultant with review by the advisory committee and the administrator's approval. Insurance premiums are based on the Fund's benefit year. The benefit consultant reviews the historical claims experience and administrative costs and uses that data to estimate trends to recommend premiums for the next benefit year.

(An Enterprise Fund of the State of Alaska)

Management's Discussion and Analysis (Unaudited)

June 30, 2024 and 2023

Health Insurance Premiums and Investment Income

The revenue required to fund postemployment healthcare benefits is accumulated through a combination of employer and member health insurance premiums, prescription drug rebates, and net investment income.

	Revenue								
	-	Increase (decrease)							
	_	2024	2023	Amount	Percentage	2022			
Employer health insurance									
premiums	\$	1,436,158	1,447,664	(11,506)	(0.8)% \$	1,475,906			
Member health insurance premiums		91,591,027	90,036,066	1,554,961	1.7	89,101,027			
Employer group waiver plan		149,089	157,728	(8,639)	(5.5)	149,805			
Medicare retiree drug subsidy		4,073	2,618	1,455	55.6	4,696			
Pharmacy rebates		304,095	174,232	129,863	74.5	109,888			
Pharmacy management allowance		409	322	87	27.0	26,005			
Miscellaneous income		16,253	14,956	1,297	8.7	45,324			
Net investment income (loss)	_	78,209,044	64,879,438	13,329,606	20.5	(100,881,759)			
Total	\$_	171,710,148	156,713,024	14,997,124	9.6% \$	(9,969,108)			

Employer-paid Major Medical premiums were \$1,046 for calendar years 2024, 2023 and 2022 per month per eligible retiree. Member health insurance premiums received increased as a result of higher member participation counts within the DVA and LTC plans.

The Division of Retirement and Benefits (the Division) implemented a group Medicare Part D prescription drug plan known as an enhanced Employer Group Waiver Plan (EGWP) for all Medicare-eligible members covered under the Retiree Health Fund (RHF) Major Medical Fund. During fiscal year 2024, the RHF received \$149,089 in EGWP funds from the Center of Medicare and Medicaid Services (CMS) through the EGWP Plan Sponsor, OptumRx, compared to fiscal year 2023 receipts of \$157,728, and fiscal year 2022 receipts of \$149,805. The changes each year are based on prescription drug usage as well as costs of those same prescription drugs that determine EGWP funds paid to the Fund.

Pharmacy rebates are reimbursed to the RHF by the third-party administrators. During fiscal year 2024, the RHF received \$304,095 in pharmacy rebates compared to \$174,232 received during fiscal year 2023, and \$109,888 during fiscal year 2022. The Division negotiated higher rebates beginning in calendar year 2021 and are seeing the results of those increased rebates based on higher usage of prescription drugs in the Major Medical plan. The higher rebates from calendar year 2021 began impacting the rebates received during fiscal year 2023 had a full year of those higher rebates.

The Fund's net investment income in fiscal year 2024 increased by \$13,329,606 or 20.5% from the amounts in fiscal year 2023. The Fund's net investment income in 2023 increased by \$165,761,197 or 164.3% from amounts recorded in fiscal year 2022. Fiscal year 2024 investment returns were significantly higher due to strong investment markets and due to higher levels of investment capital in the LTC plan as it continues to receive contributions in excess of annual claims costs, though those costs are expected to increase as members begin using their LTC coverage. Investment returns were higher due to an overall better investment environment during fiscal year 2023 in the equities market compared to fiscal year 2022.

(An Enterprise Fund of the State of Alaska)

Management's Discussion and Analysis (Unaudited)

June 30, 2024 and 2023

The plans' rate of returns for the year ended June 30 and annualized were as follows:

	Year en	ded	Annualized		
	2024	2023	3 years	5 years	
Major Medical	5.71 %	4.01 %	3.25 %	2.34 %	
DVA	5.60	3.56	2.52	1.95	
LTC	9.83	9.16	1.42	5.54	

Benefits and Expenses

The primary expense of the Fund is the payment of postemployment healthcare benefits. These cost of benefits and the cost of administering the Fund comprise the cost of operations.

		Expenses								
			Increase							
		2024	2023	Amount	Percentage	2022				
Healthcare benefits	\$81,	349,107	67,848,507	13,500,600) 19.9%	\$ 75,801,347				
Administrative	3,	700,918	3,565,855	5 135,063	3.8	3,493,807				
Total	\$ <u>85,</u>	050,025	71,414,362	13,635,663	19.1%	\$				

Healthcare benefits expense increased by \$13,500,600 or 19.9% from fiscal year 2023 and decreased by \$7,952,840 or (10.5)% from fiscal year 2022. The fiscal year 2024 increase in healthcare benefits expense is due to higher total claims primarily within the LTC plan by \$11.7 million. The fiscal year 2023 decrease in healthcare benefits is due to the major medical and DVA plans having modest increases, while the LTC plan had a major reduction of \$10.6 million due to having fewer open claims during fiscal year 2023.

Administrative expenses increased by \$135,063 or 3.8% from fiscal year 2024 and increased by \$72,048 or 2.1% from fiscal year 2022. The increase in fiscal year 2024 is mostly due to contractual services such as increases in advertising, communication, rental/leases and legal fees. The increase in administrative expenses during fiscal year 2023 is mostly due to contractual services, such as increases in management and consulting and transportation. The Fund's benefit consultants and the Division continue to identify and develop premiums necessary to cover claims and administrative cost.

Funding

Postemployment healthcare benefits are funded by health insurance premiums received from participants in the retirement system as well as from income earned on fund investments. Healthcare insurance premiums are recommended each year by the Division's consultant with the governing body's concurrence and the Administrator's approval.

(An Enterprise Fund of the State of Alaska)

Management's Discussion and Analysis (Unaudited)

June 30, 2024 and 2023

Economic Conditions, Market Environment, and Results

The overall objective of the Fund is to have sufficient funds to meet current and future claim costs. The premiums for the major medical and DVA plans are calculated each year based on the anticipated claims and administrative costs for the following year. The benefit consultant reviews the historical claims experience and administrative costs and uses that data to estimate trends to develop premiums. The amount of reserves is considered when setting the premiums. The premiums for the LTC plan have been developed to provide future benefits for the retirees, much like an annuity. The LTC plan will accumulate large reserves to pay future benefits.

(An Enterprise Fund of the State of Alaska)

Notes to Financial Statements June 30, 2024 and 2023

(1) Description

The following brief description of the State of Alaska Retiree Health Fund (the Fund), an Enterprise Fund of the State of Alaska (the State), is provided for general information purposes only. Participants should refer to the "AlaskaCare Defined Benefit Retiree Insurance Information Booklet" and the "State of Alaska Long-Term Care Booklet" for more complete information.

(a) General

The Fund was established on July 1, 1997 to provide low-cost health insurance options to retirees of the Public Employees' Retirement System (PERS), Teachers' Retirement System (TRS), Judicial Retirement System (JRS), and Elected Public Officers' Retirement System (EPORS) (collectively referred to as the Retirement Systems). The Fund is an enterprise fund of the State financial reporting entity and is included as such in the State's Annual Comprehensive Financial Report (ACFR).

(b) Premiums and Participants

The Fund's major medical health insurance premiums are funded by the applicable Retirement Systems as well as contributions from the Alaska Department of Transportation and Public Facilities for retired members of the Marine Engineers Beneficial Association. The Fund's health plan options for voluntary dental, vision, and audio (DVA) as well as voluntary long-term care (LTC) are funded by monthly premiums paid by members and eligible recipients. A member may extend coverage to dependents for an additional monthly premium based on the coverage requested.

(c) Benefits

The Fund offers major medical, voluntary DVA, and voluntary LTC insurance options to eligible recipients of the Retirement Systems and their dependents.

(d) Medical

The Fund provides medical benefits to qualified benefit recipients of the Retirement Systems. The State pays the medical premiums for benefit recipients of the EPORS, for benefit recipients of the Marine Engineers Beneficial Association and the Masters Mates and Pilots who retired from the State after July 1, 1986, and for benefit recipients of the Northwest Marine Trust who retired from the State before July 1, 1984. Retiree COBRA enrollees must elect coverage and pay a premium to continue participation.

(e) Voluntary DVA and LTC

Individuals receiving benefits from one of the Retirement Systems, including alternate payees under a QDRO, may elect insurance coverage for themselves and their eligible dependents. If coverage is elected, the premiums are paid by deductions from retirement checks or may be paid directly.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The Fund's financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting in conformity with U.S. generally accepted accounting principles

(An Enterprise Fund of the State of Alaska)

Notes to Financial Statements

June 30, 2024 and 2023

(GAAP), as prescribed by the Governmental Accounting Standards Board (GASB). Insurance premiums are recognized in the period in which they are due. Benefits are recognized when due and payable and expenses are recorded when the corresponding liabilities are incurred, regardless of when premiums are received, or payment is made.

(b) Financial Statement Presentation

The Fund distinguishes operating revenue and expenses from nonoperating revenue and expenses. The principal operating revenue of the Fund is employer and member health insurance premiums. Operating expenses for the Fund include postemployment healthcare benefits and administrative expenses. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

(c) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

(d) Investments

The Department of Revenue, Treasury Division (Treasury) has created a pooled environment by which it manages the investments. The Commissioner of Revenue (the Commissioner) has fiduciary responsibility. Actual investing is performed by investment officers in Treasury or by contracted external investment managers. The Fund invests in the State's internally managed General Fund and Other Nonsegregated Investments Pool (GeFONSI). The complete financial activity of the funds is shown in the State's ACFR available from the Department of Administration, Division of Finance.

Assets in the pools are reported at fair value. Investment purchases and sales are recorded on a trade-date basis. Securities are valued each business day using prices obtained from a pricing service.

The accrual basis of accounting is used for investment income. GeFONSI investment income is distributed to pool participants monthly if prescribed by statute or if appropriated by state legislature. Income in the Short-term Fixed Income Pool, Broad Market Fixed Income Pool, Domestic Equity Pool, International Equity Pool, and Real Estate Investment Trust Pool is allocated to the pool participants daily on a pro rata basis.

(e) Statement of Cash Flows

For purposes of reporting cash flows, cash and cash equivalents include the Fund's investment in the GeFONSI and the Short-term Fixed Income Pools. These investment pools have the general characteristics of a demand deposit account.

(f) Administration

The Fund is administered by the State's Division of Retirement and Benefits (the Division). The Division utilizes the services of claims administrators, Aetna, Moda Health, PayFlex, and CHCS Services Inc. to

(An Enterprise Fund of the State of Alaska)

Notes to Financial Statements

June 30, 2024 and 2023

process all medical, DVA, and LTC claims and utilizes the services of pharmacy benefit manager OptumRx to process prescription drug claims. Monthly administrative fees are paid to these claims administrators. Other administrative expenses are related to employees of the Division and related office expenses.

(g) Funding

The Fund is self-insured for all benefits. The Fund's funding policy provides for the collection of insurance premiums from the Retirement Systems administered by the Division, as well as from benefit recipients, as applicable. Premium amounts are actuarially determined on an annual basis and adjusted, as necessary. The Retirement Systems retain the risk of loss of allowable claims.

(h) Due from (to) State of Alaska General Fund

Amounts due from State of Alaska General Fund represent the amounts remitted by employers to the General Fund but not yet transmitted to the System. Amounts due to the State of Alaska General Fund represent the amounts paid by others on behalf of the System.

(i) Other Income

Other income consists of Employer Group Waiver Plan (EGWP) rebates, Medicare Part D Retiree Drug Subsidy (RDS) rebates, pharmacy rebates, pharmacy management allowance, and other miscellaneous items. This other income is recognized on an accrual basis.

(3) Investments

At June 30, 2024, the Fund's share of pool investments was as follows:

Investment pool		Major medical	 LTC	Total
Cash and cash equivalents: Short-term fixed income pool Domestic fixed income:	\$	21,110,251	16,120,976	37,231,227

Total	\$	19,601,509		762,323,180	781,924,689
			-	DVA	
GeFONSI balance			\$	19,869,195	

For additional information on interest rate risk, credit risk, foreign exchange, derivatives, fair value, and counterparty credit risk, see the separately issued report on the "Invested Assets Under the Investment Authority of the Commissioner of Revenue (Audited)" at

https://treasury.dor.alaska.gov/home/investments/annual-investment-reports.

(4) Claims Payable

The liabilities for claims payable and claims incurred but not reported (IBNR) represent the estimated amounts necessary to settle all outstanding claims incurred and the present value of amounts not yet due (PVANYD) for LTC as of the balance sheet date. The Fund's reserve estimates for IBNR are based primarily on historical development patterns adjusted for current trends that would modify past experience. The Fund's reserve estimates for PVANYD are based on an actuarial valuation that considers expected future benefits, expense, and premium revenue discounted to the current valuation date. Claims are reevaluated periodically to consider the effects of inflation, claims settlement trends, and other economic factors. The process of establishing loss reserves is subject to uncertainties that are normal, recurring, and inherent in the healthcare business.

(An Enterprise Fund of the State of Alaska)

Notes to Financial Statements

June 30, 2024 and 2023

Changes in the balances of claims liabilities were as follows:

	_	2024	2023
Total, beginning of year	\$	63,344,915	66,726,567
Healthcare benefits Benefits paid	_	81,849,107 (76,269,938)	67,848,507 (71,230,159)
Total, end of year	\$_	68,924,084	63,344,915
End of year: Current liabilities:			
Due to State of Alaska General Fund Claims payable and IBNR PVANYD	\$	74,084 8,589,000 17,938,000	146,915 8,112,000 16,398,000
		26,601,084	24,656,915
Noncurrent liabilities: Claims payable and IBNR PVANYD	_	4,205,000 38,118,000	3,843,000 34,845,000
Total, end of year	\$_	68,924,084	63,344,915

(5) Employer Group Waiver Program

Effective January 1, 2019, the Fund implemented a group Medicare Part D prescription drug plan known as an enhanced EGWP for all Medicare-eligible members covered under the Major Medical Fund. The enhanced EGWP leverages increased federal subsidies to the Major Medical Fund for prescription drugs covered by Medicare Part D while also providing coverage for medications not covered by Medicare Part D through a "wrap" of additional benefits. Moving to an enhanced EGWP has resulted in the Fund receiving significantly higher subsidies, while simultaneously maintaining the prescription drug coverage retirees had prior to implementation of the enhanced EGWP. Currently, EGWP is the primary program used by the Division; however, there are still retirees that are covered by the RDS if they do not meet the requirements of EGWP.

(6) Medicare Part D Retiree Drug Subsidy

A provision of Medicare Part D provides sponsors of postemployment healthcare funds the opportunity to receive an RDS payment if the sponsor's fund provides a prescription drug benefit that is actuarially equivalent to the Medicare Part D benefit. The RDS is equal to 28% of the amount of eligible prescription drug benefit costs of retirees who are eligible for, but not enrolled in, Medicare Part D, by virtue of continuing to be covered by the sponsor's Fund. The Fund was approved for participation in the Medicare Part D program beginning calendar year 2006.
