HIGHLIGHTS

This report has been prepared by William M. Mercer-Meidinger, Incorporated to:

- (1) present the results of a valuation of the Alaska Public Employees' Retirement System as of June 30, 1986;
- (2) review experience under the plan for the year ended June 30, 1986;
- (3) determine the contribution rates for the State and for each political subdivision of the State;
- (4) provide reporting and disclosure information for financial statements, governmental agencies, and other interested parties.

The report is divided into two sections. Section 1 describes the basis of the valuation. It summarizes the plan provisions, provides information relating to the plan participants, and describes the funding methods and actuarial assumptions used in determining liabilities and costs.

Section 2 contains the results of the valuation. It includes the experience of the plan during the 1985-86 plan year, the current annual costs, and reporting and disclosure information.

The principle results are as follows:

	<u>1985**</u>	<u>1986</u>
Funding Status as of June 30:		
(a) Valuation Assets*	\$1,248,146	\$1,587,599
(b) Present Value of Accrued Benefits*	1,328,964	1,556,610
(c) Accrued Benefit Funding Ratio (a) / (b)	93.9%	102.0%
Contributions for Fiscal Year	<u>1987</u>	<u>1988-89</u>
(a) Consolidated Rate	10.02%	10.37%
(b) Average Past Service Rate	.60%	(.82%)
(c) Average Total Contribution Rate	10.67%	9.55%

\* In thousands.

\*\* After change in assumptions.

**William M. Mercer-Meidinger, Incorporated**

In preparing this valuation, we have employed generally accepted actuarial methods and assumptions, in conjunction with employee data provided to us by the plan sponsor and financial information provided by Peat, Marwick, Mitchell & Company, to determine a sound value for the plan liabilities. We believe that this value and the method suggested for funding it are in full compliance with the Governmental Accounting Standards Board, the Internal Revenue Code, and all applicable regulations.

Respectfully submitted,

*Robert F. Richardson*

Robert F. Richardson, ASA  
Principal

January 6, 1987

## ANALYSIS OF THE VALUATION

### Actuarial Method and Assumptions

This actuarial report utilizes the same actuarial method as last year. However, actuarial funding surpluses are amortized over five years rather than 25 in last year's report. An experience analysis was completed in 1986 which led to revisions in the actuarial assumptions. The assumed rate of interest was increased from 8% to 9% per year. The salary scale assumption was lowered to 6.5% per year for the first five years of employment and 5.5% per year thereafter, down from 8% and 7% respectively. We also assumed that health care costs would increase at 9% per year rather than 8% per year. Mortality is now based on a unisex mortality table. In past years we had used sex-based mortality tables for funding purposes only. Based on actual experience in 1981-1985, we revised the turnover disability assumptions as well as calculated retirement rates. We now assume 69% of those receiving retirement benefits will be eligible for C.O.L.A., up from 60%. Bonds are now valued at book value in computing the actuarial value of assets.

### Investment Performance

During the 1986 fiscal year, the investment return rate, based upon market values, was more than 25% . . . even higher than last year's record rate of 22%. Based upon the three-year smoothing approach used to determine valuation assets, the return rate during fiscal year 1986 was 17.95%.

This excellent investment performance was a major factor behind the increase in accrued benefit funding ratio from 93.9% to 102%.

### Salary Increases

Another important factor affecting costs and liabilities under PERS is the impact of inflation on salary increases. For the third straight year, salary increases on an average were less than the actuarial assumption. As of June 30, 1986, the average annual salary was \$30,200 . . . an increase of 5.3% over the prior year. Accordingly, there were small actuarial gains from less-than-anticipated salary increases which contributed, along with the excellent investment performance, to lower employer contribution rates and the increase in the funding ratio.

### Membership Statistics

For the third year in a row, there was a large increase in the average age of the active PERS members. In the last year, however, average age has increased at .56 per year. This phenomenon continues to put upward pressure on costs and liabilities . . . thus dampening the beneficial affects of actuarial gains from investment and salary increases.

**Retiree Statistics**

There was a large increase in the number of new retirees during FY86, with 448 new benefit recipients added to the pension rolls. Average age at retirement showed a drop of almost half a year. This statistic continues to be volatile, with the average age for service retirements vacillating between 57 1/2 and 59 1/2 for the last several years.

**Conclusions**

Primarily due to the excellent investment performance during FY86 and the change in actuarial assumptions, employer contribution rates decreased for most political subdivisions. Cost containment measures in the retiree health program, as well as a general slowing of medical inflation, both contributed to actuarial gains from health inflation.

**Section 1**  
**BASIS OF VALUATION**

In this section, the basis of the valuation is presented and described. This information--the provisions of the plan and the census of participants--is the foundation of the valuation, since these are the present facts upon which benefit payments will depend.

A summary of plan provisions is provided in Section 1.1 and participant census information is shown in Section 1.2 to Section 1.5.

The valuation is based upon the premise that the plan will continue in existence, so that future events must also be considered. These future events are assumed to occur in accordance with the actuarial assumptions and concern such events as the earnings of the fund, the number of participants who will retire, die, terminate their services, their ages at such termination and their expected benefits.

The actuarial assumptions and the actuarial cost method, or funding method, which have been adopted to guide the sponsor in funding the plan in a reasonable and acceptable manner, are described in Section 1.6.

**Section 1.1**  
**SUMMARY OF PLAN PROVISIONS**

**(1) Effective Date**

January 1, 1961, with amendments through June 30, 1986. The Hammond vs. Hoffbeck Supreme Court decision, rendered in 1981, may have an effect on certain benefits for police/fire members hired before July 1, 1976.

**(2) Administration of Plan**

The Commissioner of Administration is responsible for administration of the System, the Public Employees' Retirement Board adopts rules and regulations to carry out provisions of the Act, and the Commissioner of Revenue invests the Fund. The Attorney General is the attorney for the System and represents it in legal proceedings.

**(3) Employers Included**

State of Alaska, and any political subdivision, and/or public organization who so elects to join the system.

**(4) Employees Included**

All permanent full-time or part-time employees of the State and participating political subdivisions, exclusive of those covered by the Alaska Teachers' Retirement System, the Alaska Judicial Retirement System, or any employee on whose behalf the State is making contributions to another retirement system. Elected officials may elect to participate at their option if they do not participate in the Elected Public Officers Retirement System.

**(5) Service Considered**

**Future:**

The later of hire, January 1, 1961, or date of employers' participation in the System, to date of termination, death, or retirement.

Up to five years of military service may be recognized if claimed, verified, and appropriate employee contribution paid.

Permanent part-time employees receive service credit on a pro-rata basis.

**Past:**

Service credit for employment with the State and Territory prior to January 1, 1961, if the employee completes three years of State employment after January 1, 1961, and is employed before January 1, 1980.

Service credit for employment as an elected official prior to January 1, 1981, if the elected official makes the required contributions.

Service credit for employment with the Alaska Bureau of Indian Affairs if the employee is not eligible for a benefit from the Civil Service Retirement System, makes the required contributions, and meets eligibility requirements under the law.

Service credit for temporary employment if the employee is vested. The cost for claiming temporary service is the full actuarial amount.

Employment with a political subdivision prior to its participation in the System is included at the option of the political subdivision.

(6) Average Monthly Compensation

Total compensation during three consecutive calendar years of credited service which yield the highest average monthly compensation (total compensation during period divided by number of months included).

(7) Employer Contributions

Separate contribution rate for each employer equal to the sum of:

(a) Consolidated Rate

A uniform rate for all participating employers sufficient to amortize all future service liabilities (less value of employee contributions) over the future working lifetimes of the covered group.

(b) Past Service Rate

A rate determined separately for each employer sufficient to amortize such employer's unfunded past service liability with level payments over 25 years.

(8) Employee Contributions

Mandatory Employee Contributions: Police & Fire - 5.00%  
Other - 4.25%

Interest Credited: 4.5% compounded semiannually on June 30 and December 31.

Refund at Termination (no vesting): Return of voluntary and mandatory contributions with interest.

Refund at Death: If no survivor's pension payable, return of voluntary and mandatory contributions with interest.

(9) Normal Retirement Benefit

Eligibility: The first of the month following the earlier of: age 55 with five or more years of fully-paid credited service; or 20 years of fully-paid credited service - Police & Fire, or 30 years of fully-paid credited service - Other.

Type:

Life only, level income, or optional joint and survivor benefit (actuarially reduced).

Amount:

2% of Average Monthly Compensation for each year of service - Other.

2% of Average Monthly Compensation for the first 10 years of service plus 2.5% for years of service in excess of 10 - Police & Fire.

Minimum - \$25.00 per month for each year of credited service.

(10) Early Retirement Benefit

Eligibility:

Age 50 and five or more years of fully-paid credited service - all employees.

Type:

Life only, level income, or optional joint and survivor benefit (actuarially reduced).

Amount:

Actuarial equivalent of Normal Retirement Benefit based on service and compensation to Early Retirement Date.

(11) Deferred Vested Benefit

Eligibility:

Five or more years of credited service, withdrawal of employee contributions voids vested rights.

Type:

Life only, level income, or joint and survivor benefit (actuarially reduced).

Amount:

Monthly benefit begins on employee's Normal Retirement Date. Amount determined the same as Normal Retirement Benefit taking into account compensation and service prior to termination.

(12) Disability Benefit

Occupational Disability:

Eligibility:

No age or service requirements.

Type:

Monthly benefit payable until death, recovery, or normal retirement.

Amount:

40% of gross monthly compensation at date of disability for members first hired on or after July 1, 1976. The benefit terminates upon attaining Normal Retirement eligibility, with Normal Retirement Benefits commencing at that time. The period of time on occupational disability is time credited toward Normal Retirement Benefits.

Non-Occupational Disability:

Eligibility:

Five or more years of credited service.

Type:

Monthly benefit payable until death, recovery, or normal retirement.

Amount:

Same formula used for Normal Retirement Benefits. The benefit terminates upon attaining Normal Retirement eligibility, with Normal Retirement Benefits commencing at that time. The period of time on non-occupational disability is not credited toward Normal Retirement Benefits.

(13) Death Benefit Before Retirement

Occupational:

No age or service requirements.

Benefit: 40% of gross monthly compensation at date of death or disability, if earlier, for members first hired on or after July 1, 1976. At the member's Normal Retirement Date, the benefit converts to a Normal Retirement benefit based on pay at date of disability or death and credited service, including period from date of disability or death to Normal Retirement Date.

Non-Occupational:

With less than one year of credited service, the death benefit is the participant's contributions with interest. With more than one but less than five years of credited service, the death benefit is a lump-sum of \$1,000 plus \$100 for each completed year of credited service and the participant's contributions with interest. Alternatively, a retirement benefit to the spouse is available at death of the member after five years of credited service, based on a 50% Joint and Survivor equivalent of the accrued Normal Retirement Benefit.

(14) Death Benefits After Retirement

The employee's beneficiary receives a lump sum equal to the excess of his contribution account immediately prior to retirement over the sum of the pension payments previously received by the employee.

(15) Post-Retirement Pension Adjustment

When the administrator determines that the cost of living has increased and that the financial condition of the retirement fund permits, all retirement benefits may be increased. The amount of the increase shall be not more than 4% compounded for each year of retirement, or the cost of living increase since the date of retirement, reduced by prior Post-Retirement Pension Adjustments.

(16) Cost-of-Living Allowance

An eligible retired employee who remains in Alaska is eligible for an additional allowance, equal to 10% of the base retirement benefit, or \$50 per month, whichever is greater.

(17) Optional Employee Savings Account

An employee can voluntarily contribute up to 5% of his compensation. This amount is recorded in a separate account and is payable:

- (a) In the event of termination before retirement for any reason other than death, as a lump sum to the employee,
- (b) In the event of termination on account of death, as a lump sum to the employee's beneficiary,
- (c) On retirement, as a lump sum, life annuity on cash refund basis or installments over limited period.

Section 1.6  
ACTUARIAL BASIS

Valuation of Liabilities

- A. Actuarial Method - Projected Unit Credit. The unfunded accrued benefit liability is amortized over 25 years. Actuarial funding surpluses are amortized over five years.
- B. Method For Accumulated Plan Benefit Values - The actuarial present value of accumulated plan benefits (the term used for Financial Accounting Standards Board purposes) and present value of vested accumulated benefits are a measure of plan benefits which have been earned to date. These are not only a valuation of retirement benefits, but also of deferred vested, death benefits, and other ancillary benefits. Earnings and service for benefit purposes which are expected to be earned after the valuation date are excluded from these values.

The actuarial assumptions used to determine these values are identical to those used for the funding purposes.

In estimating accumulated benefits, final average compensation is based on compensation data in the possession of the actuary.

C. Actuarial Assumptions -

- 1. Interest 9% per year, compounded annually, net of investment expenses.
- 2. Salary Scale 6.5% per year for the first five years of employment and 5.5% per year thereafter.
- 3. Health Cost Inflation 9% per year.
- 4. Mortality 1984 Unisex Pension Mortality Table set back 1-1/2 years.
- 5. Turnover Based upon the 1981-85 actual total turnover experience. (See Table 1).
- 6. Disability Incidence rates in accordance with Table 2. Post-disability mortality in accordance with rates published by the Pension Benefit Guaranty Corporation to reflect mortality of those receiving disability benefits under Social Security. Disabilities are assumed to be occupational 85% of the time for Police/Fire, 35% for "Others".

**William M. Mercer-Meidinger, Incorporated**

7. Retirement Age	Retirement rates based on actual experience in accordance with Table 3.
8. Spouse's Age	Wives are assumed to be four years younger than husbands.
9. Contribution Refunds	100% of those terminating after age 35 with five or more years of service will leave their contributions and thereby retain their deferred vested benefit. All others who terminate are assumed to have their contributions refunded.
10. C.O.L.A.	69% of those receiving retirement benefits will be eligible for C.O.L.A.
11. Expenses	No loading for expenses.

**Valuation of Assets**

Based upon the three-year average ratio between market and book values of the System's assets, except that bonds are carried at book value. Assets are accounted for on an accrued basis.

**Valuation of Medical Benefits**

Medical benefits for retirees are provided by the payment of premiums from the trust fund. A pre-65 cost and lower post-65 cost (due to Medicare) were assumed such that the total rate for all retirees equals the present premium rate. These medical premiums are then increased with the health inflation assumption. The actuarial cost method used for funding retirement benefits is also used to fund health benefits.

For ages less than 50, employees are assumed to retire two years after the earliest age they are eligible to retire.

**Section 2**  
**VALUATION RESULTS**

This section sets forth the results of the actuarial valuation.

Section 2.1(a) shows the distribution of net assets as of June 30, 1986.

Section 2.1(b) shows the transactions of the plan's fund during FY86.

Section 2.1(c) develops the valuation assets as of June 30, 1986.

Section 2.2(a) shows the actuarial present values for Police and Fire members as of June 30, 1986.

Section 2.2(b) shows the actuarial present values for "Other" members as of June 30, 1986.

Section 2.3(a) develops the average employer contribution rate for Police and Fire members - FY88 & FY89.

Section 2.3(b) develops the average employer contribution rate for "Other" members - FY88 & FY89.

Section 2.3(c) develops the average employer contribution rate for all members - FY88 & FY89.

Section 2.4 shows the contribution rates for the Fiscal Years 1987, 1988, and 1989.

Section 2.5 compares the contribution rates between FY87 and FY89.

Section 2.6 shows the adjustment to the Retiree Reserve.

Section 2.7 shows the disclosure for F.A.S.B. Statement Nos. 35 and 36 as of June 30, 1986.
